REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL DURING THE YEAR 1913-14.

NOTIFICATION.

No. 1870S. R.—The 16th October 1914.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the Administration of the Excise Department in Bengal during 1913-14, are published for general information, together with a memorandum issued by Government on the Report.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal

FINANCIAL DEPARTMENT.

Memorandum on the Report of the Commissioner of Excise on the administration of the Excise Department in Bengal during the year 1913-14.

THE principal feature of the Excise administration of the year 1913-14 was the extension of the system of consulting local opinion in excise matters. Hitherto in Western Bengal Advisory Committees were constituted only in towns with a population of 20,000 and over and in Eastern Bengal only in the towns of Dacca, Chittagong and Narainganj; but their activities have now been extended to all the Municipalities throughout the Presidency and Local Boards have been constituted Advisory Committees for rural areas. A still further advance was made in the Municipalities situated in the Calcutta Excise district; Licensing Boards have been constituted on which the Municipalities, the Civil authorities, the Temperance societies and the Excise authorities are directly represented, and of which the Commissioner of the Division is the President and full powers, except that of granting licenses, have been entrusted to these Boards. These Boards have already met, but the full importance of the step will not be realised until the next biennial settlements are made at the beginning of 1915.

2. Other steps in the direction of more complete control were also decided upon during the year and have taken effect from 1st April 1914. of which the most important are—(1) the raising of the duty on *charas* from Rs. 12 to Rs. 30 per seer; (2) the fixing of maximum prices in the districts of the Dacca and Rajshahi Divisions; (3) raising the rate of duty on country spirits in most districts and of the maximum prices in Western Bengal; (4) curtailing the hours during which excise and opium shops are permitted to be open for sale; (5) restriction of the issues of opium to retail shops in Khulna, Midnapore and parts of Birbhum, Nadia and Jessore; and (6) a decrease from 97 to 50 in the number of occasional licenses for fairs, etc.

3. The total excise revenue for the year was Rs. 1,53,88,017, being an increase of Rs. 16,28,860 over the figures of the previous year. The bulk of the increase was contributed by *ganja* (Rs. 6,07,559), country spirit (Rs. 5,66,482) and opium (Rs. 3,66,763), only slight increases occurring under the heads of foreign liquor, *tari* and *pachwai*. The causes of the increase have been discussed by the Excise Commissioner under each head, but the net result is an increase in the incidence of excise revenue from 4 annas 10 pies to 5 annas 5 pies.

4. *Country spirit.*—The whole of the Presidency is now supplied by the contract system; the outstills in the Chittagong Division were abolished at the beginning of the year, and it is therefore necessary to exclude the Chittagong figures when making comparisons with the previous year. The increase in revenue was derived both from duty and license fees, Rs. 3,72,109 from the former and Rs. 1,94,373 from the latter, but if the Chittagong figures are omitted the actual rise in duty was Rs. 2,97,525 and in license fees Rs. 2,36,814, of which Rs. 1,06,712 came from Calcutta. As noted in the review on the report for 1912-13 the rate of duty was considerably raised in almost all districts; the rise in license fees in spite of this seems to show that owing to the generally prevailing prosperity the consumers could bear an even higher price for their liquor than was anticipated. The rise in the rate of duty accounts for the increased receipts under this head and the total consumption, excluding the Chittagong figures, fell by 44,704 proof gallons, and the total increase of revenue of 5½ lakhs from country spirit was obtained from a materially decreased consumption. The Excise Commissioner, however, shows that this decrease was not so entirely satisfactory as it would appear to be at first sight. In the Rajshahi Division except Jalpaiguri, and in the Dacca Division except Mymensingh, there was a general decrease of consumption, but the main decrease (38,602 gallons) was in Calcutta and though it is partially accounted for by the rise in price owing to the increase of duty and license fees, there is reason to believe that it does not altogether connote a decrease in the consumption of alcohol as to some extent country spirit seems to have been displaced by cheap foreign liquor. This possibility of the substitution

of one form of stimulant for another is one of the greatest difficulties in Excise administration and necessitates great caution in introducing measures which tend to restrict consumption in any one direction; the competition of foreign liquor is being carefully watched, and it is proposed to separate the vend of country and foreign liquor and thus lessen the temptation to consumers of country spirit to take to foreign liquor when they find it offered to them at a cheaper rate. In the Burdwan Division and the Presidency Division outside Calcutta consumption increased and in consequence the rates of duty and the maximum prices have been increased with effect from the 1st April 1914 throughout these two divisions except where illicit distillation is already a danger which taxes the whole energies of the excise staff. In the Dacca and Rajshahi Divisions where the prices have risen considerably maximum prices have been fixed at as nearly as possible the highest prices current, so that the general run of prices will be levelled up, and, in order to secure this, the rates of duty have been raised. Owing to smuggling over the border excise administration in Jalpaiguri presents peculiar difficulties, and it has not been found possible to raise the duty there. The fact that the license fees in the current settlement have only risen by Rs. 8,000 affords a strong presumption that the measures taken by Government to check an undue rise in consumption are adequate.

5. *Ganja.*—The duty was increased by Rs 4 a seer at the beginning of the year, and the license fees were enhanced by Rs. 1,80,679, and the total taxation was Rs. 28·9 a seer against Rs. 22·9 in the previous year. Consequently there was a general rise in the retail price of the drug and a total decrease of 110 maunds in the consumption. The increase in revenue of Rs. 6,07,559, of which Rs. 4,26,880 came from duty, is therefore satisfactory. The total receipts were Rs. 35,15,733 against Rs. 29,08,174 in 1912-13. The license fees have again risen by Rs. 2,40,000 in the current year.

6. *Opium.*—The increase in consumption was 12 maunds 28 seers and the total consumption was 1,710 maunds 5 seers. Consumption increased in 15 districts and decreased in 12 and it is probable that the operations of smugglers account for some of the divergencies. But while the increase in consumption was only ·75 per cent., the increase in revenue was Rs. 3,66,763, or 15 per cent. There was a decrease in the number of licenses and druggists' permits and in the current year the hours of sale have been further curtailed and the policy of restricting issues has been extended. Orders have been received unifying the treasury prices throughout the Presidency and the effect will be a general rise in duty from 1st April 1915. In the current year the license fees have risen by over 4 lakhs which must have the effect of raising the retail price.

7. His Excellency the Governor in Council considers that the report affords strong proof of the adherence of the Government of Bengal to the principles enunciated by the Government of India as guiding the excise administration in this country and gives satisfactory evidence of the successful carrying out of those principles. The difficulties are great, illicit distillation is still only partially combated and the illicit traffic in cocaine still continues to flourish, while the danger of the substitution of foreign liquor for country spirit has been evidenced in Calcutta; caution is therefore necessary and it is impossible to introduce restrictive measures as speedily as temperance advocates would desire. But in the current year the Excise Act has been amended so as to increase the penalties on the cocaine traffic, and sanction has been received to the reorganization and strengthening of the Excise Department, and it is trusted that these measures will give Government increased control over the administration of excise.

No. 2337E., dated Calcutta, the 31st July 1914.

From—THE HON'BLE MR. A. N. MOBERLY, I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secy. to the Govt. of Bengal, Financial Dept.

I HAVE the honour to submit the following report on the Administration of the Excise Department in the Presidency of Bengal for the year 1913-14.

5. **Excise Advisory Committees.**—In the Burdwan and Presidency Divisions and in the district of Darjeeling local committees, consisting of both official and non-official members, were formed annually up to 1912-13, in towns with a population of 20,000 and over, to consider and advise the Collector on the proposals regarding the number and situation of liquor shops (country spirit, foreign liquor, *tari* and *pachwai*) to be licensed for the following year. In the Eastern Bengal districts such committees were only convened in the towns of Dacca, Chittagong and Narayanganj. Under Government order No. 473 T.—S.R., dated the 18th October 1913, the system was modified and, except in the Calcutta district, committees were formed in all municipalities within the Presidency, irrespective of their population, to advise the Collector on the proposals regarding the number and location of shops for the retail sale of all excisable articles (intoxicating drugs as well as liquor) and opium for the year 1914-15. The Divisional Commissioners were empowered to appoint the members subject to the condition that the non-official community and the Excise Department should be adequately represented. Government order No. 1833 S.R., dated the 12th November 1913, extended the principle to the rural areas of the Presidency, and the Local Boards in each subdivision were constituted advisory committees for the areas under their charge to assist the Collector in dealing with matters relating to the number and location of licensed shops. * * *

6. **Licensing Boards.**—Under Government Notification No. 1812 S.R., dated the 11th November 1913, Licensing Boards were appointed for the municipalities situated in the Calcutta district, to exercise, subject to the control of the Local Government and to the exclusion of the Collector and the Superintendent of Excise Revenue, Calcutta, all the powers (except that of granting licenses) and to perform all the duties, which are conferred and imposed on the Collector by section 34, read with section 33 of the Bengal Excise Act V of 1909, in those portions of the Calcutta district for which they were respectively appointed. * * * *

7. **Reduction in the number of fair shops.**—Considerable progress has been made in reducing the number of temporary licenses, with the object of lessening indulgence in liquor and drugs at fairs. * *

8. **Total revenue and charges** * * * *

* The excise revenue and charges of the Presidency for the last five years are shown below :—

10. **Actual receipts.**—Deducting the advance collections (Rs. 10,96,786) for 1914-15, and adding the revenue (Rs. 11,28,789) for 1913-14, which was collected in advance in 1912-13, the actual receipts on account of 1913-14 were Rs. 1,54,20,020 against Rs. 1,34,76,580 (after similar adjustment) of the preceding year, showing an increase of Rs. 19,43,440 or 14·4 per cent.

* * * * * * *

12. **Revenue under different heads** * * * Receipts increased under every head except "*charas*," "beer brewed in India" and "cocaine." The largest increase of revenue (Rs. 6,07,559) occurred under the head "*ganja*." "Country spirit" comes next with an increase of Rs. 5,66,482, followed by "opium" (Rs. 3,66,763), "foreign liquor," excluding revenue from locally-brewed beer and duty on locally-produced denatured spirit (Rs. 40,233), "*tari*" (Rs. 24,181), and "*pachwai*" (Rs. 23,368). The largest decrease (Rs. 8,068) occurred under "*charas*."

13. **Demand and Collection** * * * Taking the population of the Presidency of Bengal, according to the census of 1911, to be 45,329,247, the incidence of excise revenue was 5 annas 5 pies against 4 annas 10 pies in the previous year.

14. **Result of Settlements for the Current year up to 31st May 1914.** * * * * * * * * * * * * * * The settlements for the current year show an increase in license-fees of Rs. 7,11,738. There was an increase of Rs. 8,858 under the head of "country spirit" and of Rs. 7,02,880 under "other excisable articles." Of the latter, *ganja* and opium license-fees increased by Rs. 2,40,150 and Rs. 4,03,352, respectively. Under "country spirit" there has been an increase of Rs. 1,96,691 in 14 districts and a decrease of Rs. 1,87,833 in the remaining 13 districts. In the 24-Parganas, Howrah and Hooghly the increase in the rate of duty does not cover the increase in maximum prices and, as consumption increased last year, the increase in license-fees was naturally large. In Rajshahi and Malda the vendors made large profits in 1913-14 by raising their prices, and, although the rate of duty has been increased, there was room for an enhancement of license-fees as well. Competition was keen in all these districts, but, as maximum prices have been fixed, detailed instructions were issued that bidding should be restricted to a figure based on the estimated consumption. In Tippera no maximum prices have been prescribed. The increase in license-fees was due to competition among bidders and will probably result in an increase in prices. About 50 per cent. of the entire decrease occurred in Darjeeling. This is due to the fact that in making the settlements for 1913-14 sufficient restriction was not placed on the bidding. At the recent settlements the upset prices fixed were considerably lower than the high fees current and there was little competition. *Ganja* license-fees increased in all districts with the exception of Howrah, Darjeeling and Faridpur, and opium license-fees in all excepting Howrah and Chittagong. The total decrease in Howrah was Rs. 30,671 as compared with the large increase of Rs. 76,016 in the previous year. The increase in *ganja* license-fees was due to the careful fixation of upset prices, with the object of levelling up the retail price in order to check consumption. As in the previous year, the greater part (Rs. 3,35,991) of the increase in opium license-fees has occurred in districts in which issues are or will be restricted, although the only decreases also occurred in two of these districts. In Howrah this was due to vendors having gone too far in 1913-14, and in Chittagong, where shops are settled at fixed fees, to a decrease in the allowances of opium to certain shops. The reason why vendors bid so freely in these districts is that, where allowances are fixed, they can raise their prices without fear of competition. The only other fluctuations of more than Rs. 10,000 are an increase of Rs. 18,855 under "*pachwai* retail licenses" in Birbhum—this is merely a matter of competition at settlement, as upset prices cannot be fixed very accurately; increases of Rs. 27,300 in Mymensingh and Rs. 20,484 in Dacca under "foreign liquor, retail," due to the licenses

having been settled by auction instead of at fixed fees, with the object of forcing up the price of the cheaper brands, which are in great demand; and a decrease of Rs. 11,478 under "*pachwai* home-brewing license-fees" in Darjeeling—this decrease is nominal, as the fees for these licenses are not realized in full at the beginning of the year.

SECTION II.—Country Liquor.

* * * * * * *

Country Spirit.

15. **System.**—The system of contract supply, which was introduced into the Dacca and Chittagong Divisions from the 1st April 1913, was the only system in force in this Presidency during the year under report.

16. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 823,063 gallons L.P. If the figures for the Chittagong Division are excluded for purposes of comparison, since the consumption in 1912-13 under the outstill system cannot be ascertained, the consumption was 805,893 proof gallons against 850,597 proof gallons in the previous year, a decrease of 44,704 proof gallons. This decrease was, however, neither universal throughout the Presidency nor uniform in the different districts in which it occurred. It would not, moreover, be safe to assume that the consumption of spirituous liquor decreased to anything like the same extent as the consumption of country spirit. Although accurate statistics cannot be obtained, there is no doubt that the consumption of foreign liquor increased very considerably in Calcutta, Darjeeling and the Dacca Division and to some extent in several other districts.

In the Burdwan Division the consumption of country spirit increased in every district except Birbhum. The increase was marked in Bankura (3,274 gallons), Hooghly (2,489 gallons), Burdwan (2,497 gallons) and Midnapore (1,582 gallons). In Bankura and Midnapore the greater part of the increase took place in the old outstill area and was largely due to an improvement in the condition of the labouring classes, who are the principal consumers, owing to a rise of wages. In the former district the much greater measure of success attained by the preventive staff in dealing with illicit distillation contributed to this result. There was also a fairly general increase in the old distillery area in Bankura. It was particularly marked in the shops in and near Bankura town, where there was a large influx of labourers for work on the Bengal-Nagpur Railway line and in several new brickfields. Nearly three quarters of the increase in Hooghly occurred in the Serampore subdivision and the remainder in Arambagh. In the former area this result was chiefly due to the improved condition of the mills, but the increase in the retail price of liquor in Calcutta also contributed to it, as Russa liquor used formerly to be introduced for consumption and occasionally for sale. In the Arambagh subdivision the increase (652 proof gallons) was chiefly due to the detection of a number of cases of illicit distillation. In Burdwan the increase of 2,676 proof gallons in the Sadar subdivision is attributed to better harvests. The increase in the Katwa subdivision was due to the presence of a large number of coolies working on the railway. Consumption was stationary in the Kalna subdivision and decreased in Asansol. The increase in Howrah occurred in the shops in the neighbourhood of Calcutta and was due to the increase of prices in that city.

The most striking fluctuations in the Presidency Division were an increase of 4,369 proof gallons in the 24-Parganas, and a decrease of 38,602 proof gallons in Calcutta. The greater part of the increase in the 24-Parganas occurred in the industrial areas in the Sadar and Barrackpore subdivisions, and was due to the increasing number and prosperity of the mill operatives, and to the rise of prices in Calcutta. The Collector ascribes the increase in the Diamond Harbour subdivision to continued success in dealing with illicit distillation. The large decrease in Calcutta may be attributed to the increase in the rate of duty combined with a considerable enhancement of

license-fees. This increase in taxation caused a rise of prices both directly, by an increase in the selling price per bottle, and indirectly, since it led the vendors to resort more largely to dilution, which is not prohibited in Calcutta. The higher prices operated in more ways than one to reduce the consumption of country spirit. In the first place, the increase, coming, as it did, after a considerable period during which prices had remained practically unchanged, provoked opposition. The Superintendent of Excise Revenue reports that the Chamars and Muchis, who form a considerable proportion of the consumers of country spirit, abstained from drinking it for about two months, in the belief that the rise of prices was due to the greed of the vendors and that they could thus compel a reduction. In the second place the higher prices in Calcutta led a certain number of consumers to obtain supplies from the neighbouring areas, in which prices had not been raised, and thus contributed to the increased consumption in Hooghly, Howrah and the 24-Parganas. In the third place they resulted in the partial displacement of country spirit by the cheaper brands of locally-compounded foreign liquor. Competition between country spirit and foreign liquor has existed in Calcutta for many years, and the system of taxation of the latter article, which is at present in force, under which vend licenses for consumption off the premises are settled at one fixed fee (which is small when compared with that paid by most of the country spirit shops) and sale for consumption either on or off the premises is permitted in rather more than half the country spirit shops on payment of Rs. 75 a month, tends to neutralise the advantage which country spirit derives from a lower rate of duty. The rule under which whisky, brandy and rum may not be sold at a lower strength than 25° U.P., whilst the Calcutta vendors are permitted to dilute country spirit also gives the purchaser of the former articles additional security at a time when the vendors are tempted to dilute to an unusual extent. It was reported last year that the continuous increase in the consumption of country spirit in Calcutta was in great measure due to the fact that it had gradually displaced the cheaper brands of foreign liquor since the considerable enhancement of the tariff rate in the year 1909-10. That a rise in the retail price of country spirit should result in a movement in the opposite direction is only what might be expected, and three facts indicate that it took place in 1913-14 :—(i) the largest decrease in the consumption of country spirit occurred in the shops which are also allowed to sell foreign liquor, (ii) the clearances of foreign liquor from bond increased, (iii) some of the local compounders of foreign liquor are again extending their business.

In the Dacca Division the contract liquor was unpopular in Faridpur. In Dacca the increase in license-fees led to an enhancement of the retail price, and complaints were made regarding the reduction in the strength at which spirit is issued from 25° U.P. to 30° and 50° U.P In the districts of Dacca, Faridpur and Bakarganj consumption fell by 2,203, 1,667 and 171 proof gallons, respectively. An increase of 2,164 proof gallons in Mymensingh (where consumption had decreased considerably in 1912-13) is attributed to the large outturn and high price of jute, which caused an influx of labourers from upcountry and brought much money into the district.

It is impossible to compare the figures for the Chittagong Division with those of any previous year, as consumption under an outstill system cannot be ascertained. Prices seem, however, to have advanced considerably, and it is reported that the contract liquor was not popular with consumers. It is probable therefore that consumption decreased.

There was a decrease of upwards of 1,000 proof gallons in every district of the Rajshahi Division except Jalpaiguri. It was largest in Darjeeling (14,522 gallons), Dinajpur (6,032 gallons), Malda (2,375 gallons), Bogra (2,169 gallons), and Pabna (1,979 gallons). In Darjeeling the rate of duty and the maximum prices were enhanced, with effect from the 1st April 1913, with the object of checking consumption. At the same time there was a large increase in license-fees, and there is little doubt that the vendors managed to raise their prices above the prescribed maxima. There was a considerable increase in the consumption of foreign liquor. In the other districts, in which consumption decreased, the vendors made the enhancement

in the rate of duty an excuse for a larger increase in their prices. The price of food grains also ruled high. In Jalpaiguri, where consumption increased by 10,209 proof gallons, the maximum prices could not be enhanced on account of the smuggling, to which the district is exposed. The Excise staff continued to exercise vigilance in dealing with smuggling and in preventing illicit practices by vendors, and a large influx of labourers, in connection with road construction work and the opening of new tea gardens, contributed to swell the consumption of country spirit.

When it was seen that consumption was increasing considerably in certain areas in the Burdwan and Presidency Divisions, measures were proposed with the object of checking it. The preferential rate of duty on and the maximum price of 70° U.P. liquor in the old outstill areas of Bankura and Midnapore have been retained for the present, since the illicit distillation, which already exists in that tract, taxes all the energies of the staff, and it would be impossible to deal with the large increase of offences of this nature, which is certain to follow any enhancement of the retail price. It is hoped, however, that it will be possible to increase prices when effect has been given to the reorganization scheme. With this exception both maximum prices and the rate of duty have been increased from the 1st April 1914 throughout the districts of Bankura, Midnapore, Hooghly, Howrah, the 24-Parganas, Jessore and Khulna, in the Sadar, Katwa and Kalna subdivisions of the Burdwan district (except in a small area in the Sadar subdivision in which it has hitherto been impossible to check illicit distillation) and in the Ranaghat subdivision of Nadia. In the remaining areas consumption is either stationary or decreasing.

Any increase in the price of contract spirit in Jalpaiguri would result in the substitution of illicit liquor from the outstills which line the Bhutan frontier and which, notwithstanding the efforts of the Excise staff, still pour a large quantity of liquor into the district at considerably lower rates than that at which contract spirit can be sold. The maximum price of 70° U.P. liquor in Darjeeling has been enhanced, in order that it may correspond more nearly with the actual selling price in 1913-1914. In the remainder of the Rajshahi Division and in the Dacca Division, where there has been a general and considerable increase in prices, which cannot be kept down by competition as the shops are far apart, and where a further increase would put country spirit beyond the reach of the poorer classes of consumers, maximum prices have been fixed with effect from the 1st April 1914, in order that some control may be secured over the retail price. The maximum prices of the stronger liquor have been fixed as nearly as possible at the highest prices current, and, in districts in which prices are not uniform, the first result will probably be a general levelling of prices up to the maximum. In order that the resulting increase of taxation may not take the uncertain form of license-fees, the rate of duty has also been raised to the level of that in the adjoining districts of Western Bengal. The rate of duty in the Dacca Division has been enhanced by Re. 1-4 per proof gallon, and is now the same as that in Calcutta and the adjoining area, whilst that in five districts of the Rajshahi Division has been enhanced by Re. 1-9 and that in Malda by 15 annas per proof gallon.

17. **Total revenue from country spirit.**—The total revenue—license and distillery fees and duty—from country spirit was Rs. 69,76,670 against Rs. 64,10,188 in 1912-13, an increase of Rs. 5,66,482. The revenue derived from duty and distillery fees increased by Rs. 3,72,109 and that from license-fees by Rs. 1,94,373. Excluding the figures for the Chittagong Division, the increase in license-fees in the area in which the contract or central distillery systems were in force in both years was Rs. 2,36,811 and that in duty and distillery fees Rs. 2,97,525. The increase from duty was shared in by all districts except Calcutta, Dinajpur, Pabna and Faridpur. The increase in license-fees was greatest in the Presidency Division (Rs. 1,53,185, of which Calcutta accounted for Rs. 1,06,712), the Rajshahi and Burdwan Divisions coming next in order with increases of Rs. 71,233 (Rs. 38,263 in Darjeeling) and Rs. 11,019, respectively. The

revenue from license-fees in the Chittagong and Dacca Divisions declined by Rs. 42,441 and Rs. 1,623, respectively. The decrease in Chittagong was due to the abolition of the outstill system under which the entire taxation takes the form of license-fees.

18. **Country spirit licenses.**—The number of licenses for the sale of country spirit was 1,280, seven less than in the previous year. Fifteen shops were abolished as unnecessary or in deference to local opinion (one each in Birbhum, Hooghly, Tippera and Darjeeling, two in Mymensingh and three each in Bankura, Calcutta and Nadia) and eight new shops were opened after careful enquiry (one each in Khulna and Rangpur and six in Bakarganj) to meet a local demand. In Bakarganj the shops were placed in localities notorious for illicit distillation, and the average area per country spirit shop in that district is still no less than 171·9 square miles.

19. **Convictions for drunkenness.** * * *

* * In Calcutta 8,616 persons were convicted of drunkenness against 7,581 in the previous year. As the consumption of country spirit decreased by 11 per cent., it seems clear that these figures afford no indication of the amount of drunkenness caused by that intoxicant.

20. **Distilleries and warehouses.**—There were two modern private distilleries in the Presidency, at Asansol and Konnagar, and one Government distillery at Russa, during the year under report. The old distilleries at Dacca, Faridpur and Barisal were converted into warehouses for the storage of liquor on the introduction of the contract supply system. Eight more small warehouses at Rampur Hât, Vishnupur, Ranaghat, Meherpur, Jhenida, Narail, Satkhira and Bagerhat have been closed from the 1st April 1914. Neither the buildings nor the equipment were satisfactory, and it would have been expensive both to Government and to the contractors to bring them up to a proper standard. Arrangements have been made which will enable the vendors to obtain their supplies from other warehouses without inconvenience. The Russa Distillery supplied liquor to Calcutta and its suburbs and to the Sadar subdivisions of Howrah and the 24-Parganas. All the districts of the Rajshahi Division except Darjeeling received their supplies from the distillery of the Cawnpore Sugar Works, Limited, at Marhourah in the Saran district in the province of Bihar and Orissa. Messrs. Carew & Co. of Asansol and Messrs. D. Waldie & Co. of Konnagar have been given the contracts for the rest of the Presidency. Molasses or *mahua* were the bases used in the manufacture of country spirit. * * * *

* * * * * * * *

Tari.

* * * * * * *

22. **Statistics.**—The total number of licenses issued for the sale of fermented and fresh *tari* decreased from 1,981 to 1,884 or by 97, and the total receipts rose from Rs. 4,50,420 to Rs. 4,74,601 or by Rs. 24,181.

23. **Fermented Tari.**—The number of fermented *tari* licenses decreased from 853 to 830. The only marked fluctuations were in the 24-Parganas and Murshidabad, where the number of shops was reduced by 11 and 10, respectively. In the former district this result was due to the amalgamation of neighbouring shops ; in the latter it was found that ten of the shops which had been opened on the abolition of the system of season licenses could be dispensed with.

The bulk of the fermented *tari* revenue is derived from the Burdwan and Presidency Divisions and the district of Malda, which contributed Rs. 4,48,119 out of a total revenue under this head of Rs. 4,70,569. There was an increase of Rs. 24,390 as compared with the previous year. The increase was most marked in Calcutta (Rs. 10,731) and the 24-Parganas (Rs. 9,369).

* * * * * *

Pachwai.

25. **Licenses.**—The total number of licenses issued for retail sale, home-brewing and special manufacture, was 28,029 as compared with 28,046 in 1912-13 :—

	1912-13.	1913-14.
Retail sale	1,407	1,484
Home-brewing	25,923	25,997
Special manufacture	716	548

* * * * * * *

The number of retail licenses increased in the 24-Parganas (86), Khulna (4), Hooghly (2) and Jessore (2). There was a decrease of 10 licenses in Birbhum, 6 in Nadia and 1 in Bankura. The privilege of home-brewing was withdrawn from the aboriginal settlers in the 24-Parganas with effect from the 1st April 1911, in accordance with the recommendations of the Indian Excise Committee of 1905-06, with the object of obtaining control over the manufacture of *pachwai* and ultimately of increasing its price. The area affected is large and is for the most part intersected by rivers and water-courses. The number of shops required to supply the legitimate demands of the settlers must therefore necessarily be considerable. For some time, however, the aborigines continued to manufacture *pachwai*, and refused to take out licenses for retail sale, in the hope that a reversion to the old system of home manufacture would be sanctioned. The number of licenses settled in 1911-12 was only 9, and, in 1912-13, 28—a number entirely inadequate to supply the needs of so large an area. A number of prosecutions for unlicensed manufacture has shown the settlers that the policy of prohibiting home-brewing will be persisted in, and they are now coming forward to take out retail licenses. The increase in the number of these licenses in the 24-Parganas is, therefore, the natural result of the change of system. The increased number of licenses in Jessore and Khulna, from which the privilege of home-brewing was withdrawn at the same time, is due to the fact that it was found that some of the *pachwai*-consuming settlers were out of reach of any licensed shop. Provision had therefore to be made for them. Opposition has not even now entirely ceased in the 24-Parganas and Khulna, and some further increase in the number of shops will probably be necessary.

The number of home-brewing licenses increased by 179 in Dinajpur and by 125 in Malda, and decreased by 131 in Darjeeling. The Collector of Malda reports that there is still a marked disinclination among some of the Sonthals to pay for the privilege of home-brewing, and that the combination, which was formed in some thanas in 1912-13, has not yet been altogether broken.

26. **Revenue.**—The revenue from retail license-fees increased from Rs. 7,89,105 to Rs. 8,11,432 or by Rs. 22,327. The increase was considerable in Birbhum (Rs. 8,743), Burdwan (Rs. 5,024), Midnapore (Rs. 3,028) and Bankura (Rs. 3,023). The revenue from home-brewing licenses was Rs. 44,500 in the year of report against Rs. 43,459 in 1912-13.

SECTION III.—Foreign Liquor.

* * * * * * *

28. **Licenses and revenue.**—The total number of licenses issued for the wholesale and retail vend of potable foreign liquor, exclusive of licenses for the retail sale of medicated wine and rectified spirits, was 668 against 597 in the previous year. The only considerable fluctuation was an increase of 73 bar licenses for theatres and other places of amusement. These licenses are only issued in Burdwan, Howrah, Calcutta and Dacca and are

usually taken out by the day. Only one such license was in force throughout the year. The number of "on and off" and "off" licenses decreased by 2 and 4, respectively. The number of licenses for the sale of medicated wine increased by 19, out of which the Dacca Division alone accounted for 11. The total receipts from license-fees amounted to Rs. 3,77,075 against Rs. 3,43,239 in the preceding year. The receipts from duty on Indian-made foreign liquor were Rs. 2,32,597 as compared with Rs. 2,26,303 in 1912-13.

29. **Imports and issues of foreign liquor from the Custom Houses, Calcutta and Chittagong.**—The following statistics of imports are quoted from the report of the Collector of Customs, Calcutta, on the Maritime Trade of Bengal for the year 1913-14, and from a statement furnished by the Collector of Customs, Chittagong :—

	1912-13.		1913-14.

GRAND TOTAL ...	1,855,107		1,793,871	

* * * * * * The Collector of Customs, Calcutta, explains the figures of imports into the port of Calcutta in 1913-14 as follows :—

"Imports of beer decreased in quantity by 6 per cent. Brandy and whisky rose in quantity by 9 and 14 per cent., respectively ; consumption of brandy (63,585 gallons) increased by 18 per cent. and whisky (188,331 gallons) by 8 per cent. : stocks in bond at close of the year were greater for whisky, but smaller for brandy. Gin, rum, spirits for drugs and perfumed spirit were all consumed in larger quantities. The consumption of white and rectified spirits advanced from 31,899 to 50,887 proof gallons. There has been some displacement of country spirit in Calcutta by cheap foreign liquor."

* * * * * * *

30. **Duty-free spirits.**—The following quantities of rum and rectified spirits were issued duty-free during the year :—

	L. P. gallons.
Shahjehanpur rum	247
Madras rectified spirits	10,620
Asansol ditto	4,591
Shajehanpur ditto	164
Konnagar rum	581
Ditto rectified spirits	265

* * * * * * *

31. **Issue of rectified spirit at the reduced rate of duty.**—A total quantity of 5,249 L.P. gallons of rectified spirits made in Asansol, Konnagar

and Madras was issued to wholesale chemists and druggists for the manufacture of medicines, chemicals or drugs, on payment of duty at the reduced rate of Rs. 7-13 per gallon, L.P., or used by Messrs. D. Waldie & Co. for manufacture of these articles in bond.

* * * * * * *

Locally-manufactured Beer.

34. **Statistics.**—The number of breweries was 2, as at the close of 1912-13. Duty was charged upon 62,609 gallons, as compared with 65,109 gallons in the preceding year, when a third brewery was working for some months. An increased demand from regiments during the year under report was responsible for a larger outturn from the Victoria Brewery, Sonada.

* * * * * * *

Receipts from license-fees and duty amounted to Rs. 11,904 against Rs. 12,778 in the previous year.

* * * * * * *

SECTION IV.—Hemp Drugs.

* * * * * * *

Ganja.

40. **Retail licenses.**—The total number of licenses issued in the Presidency for the retail sale of *ganja* was 1,402 as compared with 1,422 in 1912-13.

* * * * * * * * * * The license-fees realized amounted to Rs. 16,43,268 against Rs. 14,62,589 in the previous year.

41. **Consumption of Ganja.**—The increase in the rate of duty by Rs. 4 per seer, combined, in the majority of districts, with increased license-fees, resulted in a rise in the retail price of *ganja*, except in a few localities. * * * * * There was a net decrease of 110 maunds in the quantity of *ganja* consumed within the Presidency, the figures being 2,960 maunds 10 seers against 3,070 maunds 10 seers in 1912-13. The decrease was shared by 18 districts, whilst consumption remained stationary in one, and in four others increased by less than a maund. The decrease was largest in Dinajpur (43 maunds 16 seers), Malda (23 maunds 3 seers), Pabna (11 maunds 27 seers), Nadia (11 maunds 21 seers), Faridpur (11 maunds 1 seer), Hooghly (9 maunds 30 seers) and Jalpaiguri (9 maunds 24 seers). In all these districts, with the exception of Jalpaiguri, consumption had increased largely in one or both of the two preceding years. Part of the decrease in Hooghly must be set off against the increase in the neighbouring shops in the 24-Parganas. In the other districts the price of food-grains ruled high and contributed to the decrease in consumption.

The increase of 3 maunds 20 seers in Burdwan is almost entirely accounted for by the shops in the Asansol and Raniganj municipalities, where consumption had decreased by more than 6 maunds in the preceding year. In Midnapore the decrease was confined to the town shops in Midnapore and Kharagpur, where the retail price had been low in 1912-13. In these districts and in Bankura, where the consumption remained stationary, the general increase in prices may be claimed to have prevented the considerable increase in consumption, which would otherwise almost certainly have occurred in a year in which conditions were generally prosperous.

Consumption increased by 16 maunds 26 seers in the 24-Parganas and by 8 maunds 23 seers in Calcutta. There had, however, been large decreases in both of these districts in the two preceding years and in neither was the consumption in 1913-14 as large as in 1910-11. The increase in the 24-Parganas is more than accounted for by the increase in two shops near Barrackpore, in the neighbourhood of which two new mills were opened. Prices in these shops were comparatively low, and part of the increase was

secured at the expense of the neighbouring shops in the Hooghly district, which had in the previous year offered special rates to mill operatives from the Barrackpore subdivision. In Calcutta, the increase amounted to less than 2 per cent., notwithstanding the fact that competition kept prices down to their former level. Calcutta is not only a distributing centre, but also forms part of a fairly compact industrial area. It is therefore not easy to account for comparatively small fluctuations in consumption.

The small increase in Dacca is accounted for by the competition between the shops in Dacca city, but for which consumption in the district as a whole would probably have decreased. Consumption in this district is considerably less than in 1910-11. The increase of 14 maunds 35 seers in Mymensingh does little more than counterbalance the decrease of 11 maunds 17 seers in 1912-13. It is due to the heavy jute crop, which brought a large number of coolies and boatmen into the district and rendered the cultivators very prosperous. The small increase of 30 seers in Noakhali is also attributed to agricultural prosperity and to the influx of coolies in connection with the jute trade. That of 4 maunds 3 seers in Chittagong is due to the fact that there was no increase in the retail price, since license-fees, which had risen high in the previous year, fell to a figure which neutralized the effect of the increase of duty.

42. **Total revenue.**—The receipts for the year totalled Rs. 35,15,733 against Rs. 29,08,174 in the preceding year, the net increase being Rs. 6,07,559. The revenue from license-fees increased by Rs. 1,80,679 and that from duty by Rs. 4,26,880. The increase exceeded Rs. 50,000 in Calcutta (Rs. 91,968), the 24-Parganas (Rs. 85,528), Mymensingh (Rs. 82,333), and Dacca (Rs. 61,920). The only districts in which revenue decreased were Dinajpur (Rs. 7,670) and Darjeeling (Rs. 641). In the former both license-fees and duty decreased. Considerably less *ganja* was exported to Nepal and Sikkim from Darjeeling than in 1912-13, and there was therefore a decrease in the receipts from duty.

43. **Incidence of taxation.**—The incidence of license-fees per seer of *ganja* consumed was Rs. 13·9 and that of duty Rs. 15. The total taxation was thus Rs. 28·9 per seer against Rs. 22·9 in the preceding year.

* * * * * * *

46. **Cultivation and outturn of Ganja at Naogaon in Rajshahi.**—The continuance of high prices caused a further increase in the number of applications for permission to cultivate. Four thousand three hundred and ninety-four applications were received for an area of 6,471 bighas against 3,635 applications for an area of 5,901 bighas in 1912-13. Two thousand eight hundred and ninety-six licenses, covering an area of 2,951 bighas 14 cottahs 11 chittaks, were granted as compared with 2,959 licenses, covering an area of 3,102 bighas 19 cottahs 10 chittaks. The area actually cultivated was 2,837 bighas 12 cottahs and 12 chittaks against 3,062 bighas 15 cottahs and 6 chittaks in the preceding year.

* * * * * * * The outturn amounted to 8,213 maunds 13 seers and 14 chittaks as compared with 9,085 maunds 4 seers 3 chittaks in the preceding season.

47. **Manufacture and storage.** * * * The cost of the cultivation and manufacture of the drug is reported to have been Rs. 30-10 per maund as in the previous year.

* * * * * * *

* * * The total exports from Naogaon during the year amounted to 8,212 maunds 37 seers 6 chittaks against 6,956 maunds 25 seers in 1912-13. The increase is mainly attributable to the fact that the wholesale dealers in the districts replenished their stocks, which had become depleted owing to the small exports in 1912-13. It was shared by all Provinces and States with the exception of Cooch Behar.

* * * * * * *

Bhang.

50. **Licenses and revenue.**—The number of retail licenses in the year under report was 233 against 235 in 1912-13. The number was very small, except in the Burdwan and Presidency Divisions. The total number of

druggists' permits issued was 174 as compared with 209 in the preceding year. The decrease is mainly due to the fact that 28 fewer permits were issued in Bogra, where the number was large in 1912-13. In the year under report permits were only granted to approved *kabirajes* and druggists. The total revenue from both license-fees and duty amounted to Rs. 1,07,468, as compared with Rs. 1,02,745 in 1912-13.

51. **Consumption.**—The total consumption within the Presidency amounted to 714 maunds 13 seers against 698 maunds 27 seers in the previous year. The increase was large in the 24-Parganas (15 maunds 1 seer), and the decrease in Calcutta (14 maunds 8 seers). In the 24-Parganas the issues to the shop at Baranagore on the outskirts of Calcutta increased by no less than 12 maunds 15 seers and account for the greater part of the decrease in that city.

* * * * * * *

Charas.

52. **Licenses and revenue.**—The total number of retail licenses was 40 against 51 in the preceding year. * * * * * * * * The total revenue amounted to Rs. 51,090 as compared with Rs. 59,158 in 1912-13. There was a fall in the receipts both from license-fees and from duty.

53. **Imports and consumption.**—The total quantity of *charas* imported was 27 maunds 13 seers against 32 maunds 36 seers in the previous year. The wholesale dealers of Calcutta, Birbhum and Malda imported 24 maunds 26 seers direct from Amritsar, Rawalpindi and Hoshiarpur in the Punjab and supplied vendors in the other districts. * * * *

Issues to retail shops decreased by 1 maund 15 seers.

SECTION V.—Opium.

* * * * * * *

54. **Restricted supply of Opium to licensed shops.**—The system under which the issue of opium to retail shops is restricted to their estimated demand continued in the Sadar and Serampore subdivisions of Hooghly, and in Howrah, the 24-Parganas, Calcutta, Bakarganj and Chittagong. During the year restrictions were imposed on the issues to a few shops in Birbhum and to such shops in Midnapore as are situated near the borders of the 24-Parganas, Howrah and Orissa. * * * * * * * * * The special system of licensing opium shops by lottery among persons previously approved by the Collector continued in Chittagong.

55. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of opium was 886 against 891 in 1912-13. The decrease was due to the abolition of five shops in the Presidency Division.

56. **Druggists' permits.**—The number of druggists' permits fell from 535 to 417, a decrease of 118. The decrease was most marked in the Burdwan and Rajshahi Divisions and was due to the care with which applications were scrutinized by District Officers. The number of licenses for the sale of poppy-heads was 13 against 12 in the previous year.

57. **Consumption.**—The total quantity of opium consumed within the Presidency was 1,710 maunds 5 seers, as compared with 1,697 maunds 17 seers in the previous year, an increase of 12 maunds 28 seers.

Consumption increased in 15 districts and decreased in 12. The largest increase occurred in Burdwan (9 maunds 15 seers). * * * * Consumption decreased by 3 maunds 21 seers in Hooghly and by 2 maunds 23 seers in the 24-Parganas. On the other hand, it increased by 5 maunds 12 seers in the Sadar and Kalna subdivisions of

Burdwan and by 2 maunds 27 seers in Nadia, chiefly in the shops on the borders of Hooghly and the 24-Parganas.

The increase in Bankura was only 17 seers.

* * * * * * The increase of 2 maunds 13 seers in Calcutta is so small in comparison with the normal consumption in that city as to call for no explanation; that of 19 seers in Jessore is more than accounted for by one shop to which issues have now been restricted. There was a decrease of 1½ maund in Khulna, the result of the conviction of two vendors for selling whole cakes of opium at a time, which checked the sales to smugglers. The decrease of 1 maund 18 seers in Dacca was in great measure due to the displacement of a vendor whose sales had been suspiciously large. The increase of 1 maund 37 seers in Mymensingh is less than the decrease in the preceding year and may be attributed to the conditions of prosperity which caused an increase in the consumption of excisable articles of every description. The decrease of 3 maunds 13 seers in Bakarganj was due to the stricter enforcement of the restrictive system in the Patuakhali subdivision. The increase of 1 maund 39 seers in Faridpur, which followed an even larger increase in 1912-13, has, however, not been accounted for satisfactorily, and there seems to be some reason to suspect that smugglers have been at work in the Madaripur subdivision. The increases of 1 maund 8 seers in Tippera and 29 seers in Noakhali represent more than 14 per cent. of the previous year's consumption.

* * * * * *

In the Rajshahi Division the increase of 1 maund 15 seers in Jalpaiguri and the decrease of 26 seers in Darjeeling are respectively explained by the presence of a larger number of Chinese carpenters in the Duars and the withdrawal of the disbanded Chinese soldiers. In all the other districts the net increase was less than a maund. The increase of 3 maunds 14 seers in the Rangpur district has not, however, been accounted for satisfactorily.

* * * * * * *

58. **Total receipts.**—The total receipts amounted to Rs. 27,43,072 against Rs. 23,76,309, showing an increase of Rs. 3,66,763 or 15 per cent., whilst consumption only rose by ·75 per cent.

59. **Madak and Chandu.**—The habit of opium-smoking was prevalent in some districts, notably in Burdwan, Birbhum, Midnapore, Hooghly, Calcutta, Dacca, Mymensingh and Malda. Except in Midnapore, where the habit is very common in the part of the district bordering on Balasore and Mourbhanj, and in Mymensingh, it is believed that the habit is not spreading.

60. **Morphia and Opium pills.**—The use of morphia as a substitute for opium has been reported to exist to a limited extent in Hooghly, Calcutta and Nadia. The use of opium pills has not been reported from any district.

* * * * * *

SECTION VI.—Cocaine.

* * * * * * *

63. **Licenses and revenue.** * * * * * * * Two hundred and twenty-one licenses were issued to chemists, druggists, medical practitioners and dentists for the sale of cocaine against 238 in 1912-13. The greater part of this decrease is nominal, as no separate licenses were issued in Calcutta for eucaine and other alkaloids of coca as compared with 13 in the previous year. Twenty-one licenses for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision, viz., 16 for tea gardens in the Jalpaiguri district, 2 for charitable dispensaries in the district of Midnapore and 3 in Calcutta.

64. **Preventive operations and illicit transactions.**—The abuse of cocaine is common in Calcutta and the neighbouring parts of the 24-Parganas, in the Serampore and part of the Sadar subdivision of the district of Hooghly and in the towns of Burdwan, Raniganj and Asansol in the district of Burdwan. There is, however, no evidence that the habit has as yet established a hold elsewhere in the Presidency except in the city of Dacca. In Calcutta the illicit traffic continues to flourish notwithstanding the large increase in the number of cases detected by the preventive officers of the Excise, Customs and Police Departments. It is hoped that, when effect has been given to the proposal to increase the maximum penalty for offences connected with cocaine, prosecutions may prove more deterrent. But cocaine is so easily smuggled, the demand for it is so large, and the illicit trade is so lucrative, that persons, who are prepared to take the necessary risk, will probably always be forthcoming, and, unless the countries, in which it is manufactured, can be induced to take rigorous action to control its sale and export, it is to be feared that the total suppression of the traffic can hardly be hoped for.

* * * *

SECTION VII.—Offences against the Excise and Opium laws.

* * * * * * *

65. **Arrests and convictions.**—The total number of persons arrested during the year was 3,622 as compared with 3,401 in 1912-13. Three thousand three hundred and twenty-five persons were convicted against 3,016 in the preceding year. There was a marked increase in the number of arrests made in Burdwan (26), Bankura (79), Midnapore (46), Howrah (42) and Calcutta (253). Considerable decreases occurred in the districts of Birbhum (26), Hooghly (53), Murshidabad (24), Jalpaiguri (46), Bogra (22) and Pabna (36).

REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT FOR THE TRIENNIUM ENDING THE 31ST MARCH 1914.

NOTIFICATION.

No. 1884S.R.—The 17th October 1914.—The following extracts from the Report on the Administration of the Stamp Department for the triennium ending the 31st March 1914 are published for general information.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

No. 1833S.R., dated Darjeeling, the 23rd September 1914.

From—THE HON'BLE MR. H. L. STEPHENSON, C.I.E., Secretary to the Government of Bengal, Financial Department,

To—The Secretary to the Government of India, Finance Department.

I AM directed to submit, for the information of the Government of India, the following report on the administration of the Stamp Department during the three years ending the 31st March 1914.

2. *Important changes in the Law and in the Rules.*—The stamp revenue during the period under report was realised under the Indian Stamp Act, 1899 (Act II of 1899), and the Court-fees Act, 1870 (Act VII of 1870), as amended by the subsequent enactments. During this period Act XIV of 1911 and Act I of 1912 were passed amending the Court-fees Act, 1870, and the Indian Stamp Act, 1899, respectively. The latter Act was also amended by the Decentralisation Act, 1914 (Act IV of 1914). The other important change in the law was the enhancement by article 82 of the Calcutta Improvement Act, 1911 (Act V of 1911), of the stamp duty on Instruments of sale, gift and usufructuary mortgage of immoveable property situated within the Calcutta Municipality.

* * * * * *

FINANCIAL RESULTS.

8. The receipts, which in 1910-11, the last year of the preceding triennium, were Rs. 1,93,87,017, rose to Rs. 2,01,10,524 in 1911-12 and Rs. 2,09,12,966 in 1912-13. During the last year of the triennium, the receipts as reported by the Accountant-General, Bengal, *plus* Rs. 2,78,744 paid to the Calcutta Improvement Trust on account of excess stamp duty realised from the several districts, and also Rs. 4,99,000, the Provincial share of sale-proceeds of unified stamps credited to non-postal revenues, amounted to Rs. 2,21,97,373 and show an increase of Rs. 12,84,377 or 5·7 per cent., as compared with those of 1912-13, and of Rs. 20,86,849 or 9·4 per cent. over those of 1911-12. The increase occurred both under judicial and non-judicial stamps.

* * * * * *

A.—JUDICIAL STAMPS.

10. The sale-proceeds of court-fee stamps (excluding stamps for copies) rose steadily during the past three years. The receipts during 1913-14 were Rs. 1,37,60,789 against Rs. 1,32,27,346 in 1912-13 and Rs. 1,31,99,993 in 1911-12. The rise was ·2 per cent. in 1912-13 and 3·8 per cent. in 1913-14. Compared with 1912-13 the increase occurred in all the divisions except in the Burdwan Division. The decrease in the latter division is attributed to the decrease in the number of title-suits and suits of higher value. The increase in the Presidency Division, which occurred chiefly in Calcutta and

the 24-Parganas, is due to an increase in the amount of duty paid on probates and letters of administration. The increase in the Rajshahi Division is, it is said, normal, while that in the Dacca Division was due to settlement operations and to valuation in probate cases. The increase in the Chittagong Division is attributable to the increase in the number of civil suits and criminal cases. The receipts from the sale of stamps for copies and plain paper also increased from Rs. 6,50,467 and Rs. 3,01,747 in 1911-12 to Rs. 6,57,589 and Rs. 3,10,343 in 1912-13 and to Rs. 7,14,490 and Rs. 3,24,888 in 1913-14. respectively.

B.—NON-JUDICIAL STAMPS.

11. The revenue derived from the sale of non-judicial stamps during 1913-14 showed an increase of Rs. 6,78,997 or 9·2 per cent., as compared with 1912-13 and of Rs. 14,38,395 or 19·4 per cent., as compared with the first year of the triennium. The increase was shared by all classes of stamps except share-transfer stamps and "Miscellaneous receipts."

12. (*a*) *Impressed Stamps.*—The receipts from the sale of impressed stamps (the most important item among non-judicial stamps) showed a progressive increase during the past three years. The revenue which amounted to Rs. 33,81,503 in 1911-12 rose to Rs. 36,95,318 in 1912-13 and to Rs. 41,38,891 in 1913-14. The increase is principally ascribed to the additional stamp duty levied under the Calcutta Improvement Trust Act on instruments relating to immoveable property in Calcutta, and to the prevailing high prices on account of which sales and mortgage deeds were executed in larger numbers.

13. (*b*) *Hundis or inland bills-of-exchange.*—The revenue derived from the sale of stamps for *hundis* or inland bills-of-exchange rose steadily during the triennium under review. The receipts during 1913-14 were Rs. 2,16,985, and show an increase of Rs. 20,081, as compared with those of 1912-13, and of Rs. 38,884 over those of 1911-12.

14. (*c*) *Impressed labels or special adhesive stamps.*—The receipts from the sale of these stamps during 1913-14 showed an increase of Rs. 2,34,599 or 13·5 per cent., as compared with those of 1912-13, and of Rs. 4,61,493 or 26·6 per cent. over those of 1911-12. These stamps are principally used in Calcutta where there was an increase of Rs. 2,39,901 in 1913-14, as compared with 1912-13, which is mainly attributed to the additional stamp duty levied under the Calcutta Improvement Trust Act, and to the general prosperity of trade.

15. (*d*) *Foreign bill-stamps.*—The receipts from these stamps, which are sold only in Calcutta and Chittagong. amounted in 1913-14 to Rs. 1,97,528, and exceeded those of the preceding two years by Rs. 40,420 and Rs. 65,863 or by 20·5 and 33·3 per cent., respectively.

16. (*e*) *Share-transfer stamps.*—The sales of these stamps, which are used for payment of stamp duty on transfers of shares of public companies and associations, are practically confined to Calcutta. The revenue rose from Rs. 1,22,878 in 1911-12 to Rs. 2,03,162 in 1912-13, but fell to Rs. 1.45,373 in the following year.

17. (*f*) *Stamps for Legal Practitioners' licenses.*—The receipts from the sale of these stamps gradually rose from Rs. 1,23,717 in 1911-12 to Rs. 1,26.382 in 1912-13 and to Rs. 1,28,740 in 1913-14.

18. (*g*) *Notarial Stamps.*—These are one-rupee foreign bill-stamps overprinted with the words "Notarial" under rule 15 (*d*) of the rules issued with the Notification of the Government of India. No. 3632 Exc., dated the 29th June 1906. They were sold in 4 out of 27 districts in 1913-14. The sales of the year amounted to Rs. 1,848 in comparison with Rs. 1,127 and Rs. 1,335 during the two previous years, respectively.

19. (*h*) *Forms for agreements and contracts chargeable with two-anna coloured impressions.*—In accordance with rule 7 of the rules published with the Government of India, Finance Department, Notification No. 3632 Exc., dated the 29th June 1906, as amended by that Department Notification No. 6364 F., dated the 5th December 1910, skeleton forms of instruments,

chargeable with a duty of two annas under articles 5 and 43 of Schedule I of the Indian Stamp Act, 1899, are impressed with two-anna coloured impressions in the office of the Controller of Printing, Stationery and Stamps, Calcutta, on receipt of a certificate of payment from a Government treasury. The income from this source rose from Rs. 737 in 1911-12, the first year when the system was practically introduced, to Rs. 3,052 in 1912-13, but fell to Rs. 2,669 in the following year.

20. (*i*) *Forms for cheques and receipts.*—The sale of these forms which are stamped with one-anna coloured impressions by the Controller of Printing, Stationery and Stamps, Calcutta, in accordance with the rule cited above amounted to Rs. 1,97,093 during the last year of the triennium. The receipts exceeded those of the previous two years by Rs. 18,241 and Rs. 35,396 or by 9·2 per cent. and 17·9 per cent., respectively. The increase occurred chiefly in Calcutta.

21. (*j*) *Miscellaneous Receipts.*—The receipts under this head are mainly composed of realisations under section 35, and sections 32, 37, 40 and 41 of the Indian Stamp Act, 1899. The income from these sources rose from Rs. 88,617 in 1911-12 to Rs. 1,60,849 in 1912-13, but fell to Rs. 1,38,025 in the last year of the triennium. The decrease occurred chiefly in Calcutta.

ARRANGEMENTS FOR THE SALE OF STAMPS.

22. Statement IV shows the number of vendors entrusted with the sale of stamps, and the discount allowed to them. The total number of vendors engaged in the sale of judicial and non-judicial stamps during the year 1913-14 was 5,105 showing an increase, as compared with the previous two years, of 236 and 260 persons, respectively. The expenditure on discounts allowed to stamp vendors during 1913-14 exceeded that of the preceding year by Rs. 30,165 and that of the year 1911-12 by Rs. 51,347. The increase was in consequence of the rise in the sale of judicial and non-judicial stamps

* * * * * *

PUNITIVE ACTION OF THE COURTS AND REVENUE OFFICERS.

23. * * * The total number of cases in which deficient duty and penalty were levied, dealt with by the Civil Courts during the last year of the triennium, was 2,234 in comparison with 2,607 in 1912-13 and 2,840 in 1911-12, thus showing a gradual decrease. The duty and penalty realised by the Civil Courts during the last year of the triennium was Rs. 14,287 showing a decrease, as compared with the previous two years, of Rs. 1,165 and Rs. 2,914, respectively. There was a decrease of 161 in the number of cases decided and of Rs. 8,951 in the duty and penalty realised by Revenue-officers, as compared with the figures of the preceding year, and a decrease of 282 in the number of cases decided, and an increase of Rs. 1,529 in the duty and penalty realised in comparison with 1911-12. The decrease both in the number of cases and in the amount of realisation is attributed to the fact that the public are getting more conversant with the provisions of the law and have become more careful as to the value of stamps.

24. * * * The number of cases instituted for the infringement of the provisions of the Stamp Act in 1913-14 was 992, in which 921 persons were brought to trial against 1,313 cases and 1,395 persons in the preceding year, and 1,812 cases and 1,898 persons in the year 1911-12. The number of prosecutions in 1913-14 was less in the Burdwan and Presidency Divisions than that in 1912-13 while there was increase in all the other divisions in the Province. The falling off was marked in Calcutta (268) and is attributed to the fact that the proceedings taken are gradually having the desired effect of causing the public to take greater precaution

in stamping documents. The fines imposed during the year amounted to Rs. 4,590 showing a decrease, as compared with the previous two years, of Rs. 2,526 and Rs. 2.689, respectively. The amount paid in rewards in 1913-14 was Rs. 2,375 against Rs. 3,480 and Rs. 4,112 in the previous years. Outside Calcutta Rs. 8 only were paid in rewards and that in one district.

WORKING OF SECTION 19H ADDED TO THE COURT-FEES ACT, VII OF 1870, BY ACT XI OF 1899.

25. * * * The number of cases reported to the Collector gradually rose from 1,779 in 1911-12 to 1,916 in 1912-13 and to 2,019 in 1913-14, and the amount of deficit court-fees realised rose from Rs. 24,218 in 1911-12 to Rs. 59,610 in 1912-13 and to Rs. 56,739 in 1913-14. Of the cases reported during 1913-14, 76·5 per cent. were enquired into; the corresponding percentages in the two preceding years were 92·0 and 75·5. The proportion borne by the deficit duty realised to the amount originally paid was 7·8 in 1913-14 and 10·1 and 5·4 in the preceding two years. No case of serious under-valuation has been reported during the triennium.

REPORT ON THE ADMINISTRATION OF INCOME-TAX IN BENGAL DURING THE TRIENNIUM ENDING THE 31st MARCH 1914.

NOTIFICATION.

No. 1887S.R.—The 20th October 1914.—The following extracts from the Report on the administration of income-tax in Bengal during the three years ending the 31st March 1914, are published for general information.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

No. 1849S.R., dated Calcutta, the 8th October 1914.

From—THE HON'BLE MR. H. L. STEPHENSON, C.I.E., I.C.S., Secretary to the Government of Bengal, Financial Department,
To—The Secretary to the Government of India, Finance Department.

I AM directed to submit the following Report on the administration of income-tax in Bengal during the triennium ending on the 31st March 1914.

* * * * * * *

2. **Administration of Income-tax.**—There has been little change during the triennium in the system under which the tax is levied. The chief administrative change is the transfer of the control of the Income-tax Department (except as regards statutory appeals) from the Board of Revenue to Government as an experimental measure.

3. **Miscellaneous orders and rulings of importance.**—(*i*) It was ruled that sums realized as premia on the issue of shares by a company are not liable to income-tax.

Letter of the Government of India, No. 596 F., dated the 10th June 1913.

(*ii*) It was decided that both house-rent allowances and the annual rental value of a house occupied free of rent should be held exempt from payment of income-tax.

Letter of the Government of India, No. 1144 F., dated the 4th November 1913.

(*iii*) It was held by the Advocate-General that contributions to the provident funds started by voluntary associations, over which Government exercise no control, are not exempt from payment of income-tax.

Letter of the Government of India, No. 576 F., dated the 2nd June 1913, and the Advocate-General's opinion, dated the 17th October 1913.

(*iv*) It was held by the Advocate-General that in the case of a company registered in India which has issued debenture stock in Great Britain under a Trust Deed there executed, the interest on the debenture stock being paid to stockholders in London through London Agents of the Indian Company, the interest so payable and paid is money accruing and arising in British India, though it is payable to the debenture stockholders in Great Britain. The amount of such interest is therefore assessable under Part IV of Schedule II of the Act.

Advocate-General's opinion, dated the 17th December 1912.
(Government order No. 89 S.R., dated the 10th January 1913.)

* * * * * *

(*vi*) It was held on the advice of the Advocate-General that the income derived from the stakes won in horse racing is liable to income-tax : only the profits accruing from racing horses should, however, be assessed.

Government order No. 332 S.R., dated the 9th August 1912.

(*vii*) It was ruled that in dealing with claims to exemption of income devoted to religious or public charitable purposes it is not the actual expenditure on such purposes, irrespective of the sources from which derived, that should be taken into account, but the income derived from property which has been set apart for such purposes ; and to justify exemption the whole of the income derived from such property must be entirely devoted to these purposes. In the case of income devoted to charitable purposes, it must be charity of a public nature.

Government of Bengal circular order No. 9 S.R., dated the 2nd April 1914.

* * * * * *

5. **Revenue derived from income-tax during the triennium.**—The receipts, charges and net revenue derived from the collection of income-tax during each of the three years 1911-12, 1912-13 and 1913-14 were as follows—

Year.	Receipts.	Charges.	Percentage of charges.	Net revenue.
	Rs.	Rs.		Rs.
1913-14	66,49,007	1,67,989	2·5	64,81,018
1912-13	55,69,285	1,69,579	3·04	53,99,706
1911-12	53,47,764	1,71,118	3·2	51,76,616

The increase in the net revenue during the year 1913-14 was 20·02 per cent., as compared with 1912-13, and 25·2 per cent., as compared with 1911-12.

The average net receipts during the triennium increased by nearly 5½ lakhs over the average of the preceding triennium. The increase occurred mostly in Calcutta, and was principally due to the favourable state of the piece-goods, jute and coal markets since 1911-12.

6. **Demand on account of income-tax.**—The number of persons finally assessed and the final demand during each year of the triennium were as follows—

Year.	Number of persons finally assessed in—			Final demand in—		
	Calcutta.	Other districts.	Total of columns 2 and 3.	Calcutta.	Other districts.	Total of columns 5 and 6.
1	2	3	4	5	6	7
				Rs.	Rs.	Rs.
1913-14 ...	22,407	30,471	52,878	44,09,737	16,43,541	60,53,278
1912-13 ...	21,374	29,226	50,600	34,99,303	15,63,311	50,62,614
1911-12 ...	20,460	27,852	48,312	32,96,535	14,80,505	47,77,040

The final number of assessees and the final demand for the year 1913-14 showed an increase of 2,278 persons and Rs. 9,90,661 or 4·5 and 19·6 per cent., respectively, as compared with the figures of 1912-13, and 4,566 persons and Rs. 12,76,238 or 9·5 and 26·7 per cent., respectively, as compared with 1911-12. Of the total increase Calcutta contributed Rs. 9,10,434, or nearly 92 per cent. The final number of assessees and the final demand during the triennium under report show an increase of 4,653 persons and Rs. 4,15,710 over the preceding triennium. The increase was due to the expansion of trade generally and especially to the flourishing condition of the piece-goods, jute and coal markets as well as to the prosperity of some of the banks and insurance companies in Calcutta.

7. **Number of assessees and the amount of tax collected under Part IV in the grade of Rs. 1,000 to Rs. 1,250.**—The following statement compares the number of assessees and the amount of tax collected under Part IV in the grade of Rs. 1,000 to Rs. 1,250 during the triennium under report—

Year	Number of assessees under Part IV in the grade of Rs. 1,000 to Rs. 1,250.	Amount of tax collected under Part IV in the grade of Rs. 1,000 to Rs. 1,250.
		Rs.
1913-14	12,340	2,46,505
1912-13	11,888	2,37,710
1911-12	11,226	2,24,902

The number of persons assessed and the amount of tax collected in 1913-14 showed an increase of 452 persons or 3·8 per cent. and Rs. 8,795 or

3·7 per cent., as compared with the year 1912-13 and 1,114 persons or 9·9 per cent. and Rs. 21,603 or 9·6 per cent., as compared with the year 1911-12. The steady increase was due to the general trade prosperity and to the discovery of new assessees by careful revision. Special care was taken to exempt those to whom relief was intended to be given by Act XI of 1903.

8. **Incidence of the demand on population.**—The following statement shows the proportion of persons assessed to population and to villages in the Province and the incidence of the tax during the triennium under report :—

Year.	Proportion of persons assessed to population.		Proportion of persons assessed to villages.		Number of persons in proportion to each rupee of the tax assessed.
	Persons.	Population.	Persons.	Villages.	
1913-14 ...	1	857	44	100	7
1912-13 ...	1	896	42	100	9
1911-12 ...	1	938	40	100	9

9. **Rural and the urban incidence of the tax.**—The proportion of the tax paid in Calcutta in comparison with that paid in the rest of the Province is exhibited below—

Year.	Amount of tax realised in—		
	Calcutta.	Rest of the Province.	Total.
	Rs.	Rs.	Rs.
1913-14 ...	42,12,328	16,25,517	58,37,845
1912-13 ...	32,72,879	15,42,421	48,15,300
1911-12 ...	31,14,852	14,65,639	45,80,491

The number of assessees in each year has already been compared in paragraph 6 above. It will be seen that, during the last year, Calcutta contributed 42·4 per cent. of the persons assessed and 72·2 per cent. of the tax realized. The average amount of tax realized in Calcutta during the triennium showed an increase of nearly three lakhs, as compared with the preceding triennium.

The incidence of the tax in the rural areas during the year 1913-14 varied from Re. 1 to every 58 persons in Noakhali to Re. 1 to every 4 persons in Darjeeling.

Apart from Calcutta, only one person in 1,448 of the population pays income-tax, and the average amount paid by each assessee is Rs 54, which denotes an average assessable income of Rs. 2,074. In Calcutta (which for income-tax purposes includes the town of Howrah), the proportion is 1 person in 54 and the average tax paid is Rs. 197, representing an average income of Rs. 7,565.

10. **Incidence of the tax according to incomes.**—The incidence of the tax according to the different rates of incomes is shown in the following abstract

* * * * * *

Class.	Rate of income.	Percentage of assessees of each class	Percentage of collections contributed by each class.
	Rs.		
I	1,000 but less than 1,250 ...	34·0	5·9
II	1,250 „ „ 1,500 ...	12·4	3·2

IV	1,750 „ „ 2,000 ...	7·5	2·9
V to XIII	2,000 and over	37·2	85·2

The proportion of the number of assessees with incomes of less than Rs. 2,000 a year was 62·8 per cent. and that of the amount paid by them 14·8 per cent.

* * * * * *

12. **Objections to the demand.**—The percentages of objections to assessments for the whole Province were 7·9 in 1913-14, 8·7 in 1912-13 and 8 in 1911-12, as compared with 11·7 in the last year (1910-11) of the preceding triennium.

13. **Exemptions and result of revision.**—The figures on the margin compare the number of persons exempted on revision and the amount of tax remitted by District Officers, Commissioners and the Board during the triennium under report. The percentage of exemptions on the number of persons originally assessed was 1·4 in 1913-14 and 1·2 in each of the two preceding years; that of remissions on the original demand 1·5 in 1913-14 and 1·4 in each of the two succeeding years of the triennium. The percentage of remission did not exceed 5 except in Nadia and Rangpur, where it was 5·4 and 7·4, respectively.

Year.	Number of persons exempted.	Amount of tax remitted.
1913-14 ...	740	89,551
1912-13 ...	618	69,694
1911-12 ...	575	69,271

14. **Collections of Income-tax.**—The following statement compares the amount of the tax collected under each part of the Act during the last three years :—

Year.	Part I.—Salaries, pensions, annuities and gratuities.	Part II.—Profits of companies.	Part III.—Interest on securities.	Part IV.—Other sources.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.

1911-12 ...	8,84,089	8,95,890	1,40,126	26,60,386	45,80,491

The total collections on account of tax under all parts during the year 1913-14 showed an increase of Rs. 10,22,545 or 21·2 per cent. over those of 1912-13 and Rs. 12,57,354 or 27·5 over those of 1911-12. The increase in the total collections during 1913-14, as compared with those of the preceding years, was obtained from all the main classes of assessees—salaries (Part I) contributing Rs. 47,154, companies (Part II) Rs. 7,35,290, securities (Part III) Rs. 11,820, and other sources (Part IV) Rs. 2,28,281, or 4·6, 71·9, 1·2 and 22·3 per cent. of the total increase, respectively. Of the total increase in 1913-14, as compared with the figures of 1912-13, Calcutta contributed Rs. 9,39,449 or 91·9 per cent.

The gross collections during the year 1913-14, including arrears of tax, penalties, etc., amounted to Rs. 61,22,587, as compared with Rs. 50,50,791 in 1912-13 and Rs. 48,42,331 in 1911-12.

The percentage of tax collected under each part on the total amount of tax collected during the year 1913-14 was as follows—

Part I.—Salaries	16·5
„ II.—Profits of companies	28·5
„ III.—Interest on securities	2·7
„ IV.—Other sources	52·3

The percentage of collections on the final demand on account of tax only during the year 1913-14 was 96·4, as compared with 95·1 and 95·9 in the two preceding years, respectively. The percentage of collections on the final demand on account of tax, penalties, etc., both current and arrear, excluding advance payments and excess collections, was 94·04 as compared with 92·6 in 1912-13 and 92·2 in 1911-12.

15. **Outstanding balance of Income-tax.**—The outstanding balance on account of tax, penalties and costs in each year is shown below—

1911-12 ...	2,89,173	15,883	2,770	3,07,926

The sum of Rs. 2,63.424 outstanding at the close of the year 1913-14 includes Rs. 41,868 on account of previous years. Calcutta returns a balance amounting to Rs. 2,40,946 in 1913-14, as compared with Rs. 3,52,307 in 1912-13 and Rs. 2,86,949 in 1911-12. Out of the total balance of Rs. 2,63,424, Rs. 2.27,835 are reported to be under realization, Rs. 2,558 are doubtful, and Rs. 33.031 are probably irrecoverable.

16. **Coercive measures.**—The following statement compares the demand, collection and balance on account of penalties, fines and costs for the last three years—

20. The main feature of the triennium was the prosperity of trade in general and of the piece-goods, jute and coal trades in particular, as well as the increased profits made by some of the banks and insurance companies in Calcutta, with the result that the revenue of Calcutta rose from 32 lakhs in 1910-11 to over 44 lakhs in 1913-14. * * * *

* * The thanks of Government are due to the Commissioners and District Officers generally for their satisfactory management of the Department. There is nothing new to record in regard to the public feeling in regard to the tax.

4. **Fire loss.**—The total estimated value of property destroyed by fire is Rs. 10,06,294 as compared with—

	Rs.		Rs.
1912-13 ...	5,80,796	1909-10 ...	15,66,780
1911-12 ...	15,78,507	1908-09 ...	20,71,151
1910-11 ...	13,52,621	1907-08 ...	12,15,521

The average loss per fire is Rs. 3,931 as compared with Rs. 9,402, which is the average loss per fire for the past six years.

5. **Fire reports.**—Appendix II gives short reports of all fires of Rs. 1,000 damage and upwards. Although the number of calls has considerably increased, only 20 fires, as compared with 25 in the previous year, have exceeded Rs. 1,000 damage.

6. **Appliances.**—Appendix IX shows the distribution of the principal appliances in commission by the Fire Brigade, together with the number of calls each machine has responded to.

During the year the following new appliances have been received and placed in commission.

Two petrol motor "Hatfield" fire engines, each of a pumping capacity of 350 gallons per minute, carrying fire escapes and first-aid cylinders.

One "Commer" petrol motor fire engine, with turbine pump of 350 gallons per minute capacity carrying first-aid cylinder.

Ten thousand feet of hose, self-contained breathing apparatus and other useful small appliances have also been purchased.

The usual surveys of boilers have been held by the Government Inspector and certificates granted.

An order has been placed for a petrol motor 85 feet turntable ladder, and the machine is now in course of construction.

The remarks made in my last year's report concerning the fire float, which is under the control of the Port Commissioners and stationed at Fort Point on the river Hooghly, must be repeated this year. It is hoped that a modern and efficient fire float will shortly be provided, as the shipping on, and the valuable property adjacent to, the river form a very considerable and dangerous fire risk for which the present fire float is inadequate owing to its age, small pumping capacity, slow speed, and moreover its deep draught will not in most cases permit it to approach sufficiently close to the shore to be of material assistance until after considerable delay. As the fire float is not directly under the control of the Fire Department, efficient working and co-operation cannot always be obtained, although during the past year as much assistance as possible has been rendered by the Port Commissioners with both fire float and their steam fire engine at the Docks.

7. **Fire stations.**—The fire stations are enumerated in Appendix IX, which shows the appliances allotted to each.

On 22nd August the headquarters of the Fire Brigade were removed from Lal Bazar to a more convenient building in Corporation Place, the benefits of which have been appreciated by all members of the Fire Service. This building has been temporarily hired, pending the erection of new headquarters, for which plans are now being prepared.

The buildings at Lal Bazar are retained partly as a sub-station and partly as workshops.

In order to more efficiently protect the congested district in the neighbourhood of Harrison Road, a new fire station was taken into commission at Halliday Street on 21st August, arrangements having been made to hire a portion of the land belonging to the Pumping Station on which a suitable temporary building has been erected, pending the erection of a permanent building in this locality. One motor fire engine and a turntable ladder are stationed at Halliday Street, and the result has been highly satisfactory.

No alterations have been made at the remaining out-stations, pending the approval of the Fire Brigade Reorganization Scheme by Government.

8. **Staff.**—The total strength of the Fire Brigade staff is 216, including 23 Europeans. Appendix X shows how the staff is distributed.

I am glad to be able to report that the discipline and general behaviour have been exemplary.

Difficulty has been experienced in recruiting a sufficiently good class of Indians on the pay as at present offered, and it is hoped that the Fire Brigade Reorganization Scheme will shortly be sanctioned providing adequate pay for both Europeans and Indians.

Eight men have been granted certificates to drive and take charge of motor fire engines, and 13 men have passed examinations in proficiency in the management and care of steam fire engines.

Three Police sergeants have been permanently attached to the Fire Brigade and attend all fires for the purpose of regulating traffic, placing the local police round the scene of a fire for the convenience of the Fire Brigade, and the protection of property. This arrangement has proved very satisfactory.

9. **Horses.**—The number of horses in the Brigade at the commencement of the year was 29. Of these, owing to the advent of motors, 9 have been sold. and 2, which have died, have not been replaced, leaving a total of 18.

10. **Fatalities and accidents.**—During the year two fatalities have occurred at fires which the Brigade have attended, as compared with one in the previous year, and an average of six for the past 6 years.

On 17th July at No. 90, Maniktala Main Road, at a fire which was caused by upsetting a bottle containing sodium, two Indians were severely burnt. First aid was rendered and the injured men conveyed to hospital.

On 14th December at a fire in a two-storied building, No. 130, Circular Garden Reach Road, the body of an Indian named Abdul Rahaman was found in the *debris*. Owing to a late call no rescue was possible. The first intimation the Brigade received of the fire was from the look out man at a sub-station who saw the reflection of the fire.

On 16th December, at No. 4, Port Commissioners' Jetties, Strand Road, four Indians were severely burnt owing to a barrel of oil exploding. First aid was rendered and the injured men conveyed to hospital.

On 4th March, at No. 85, Linton Street, an Indian woman named Nibbo Bala Dassi was burnt to death. The deceased's clothing caught fire, and was extinguished before any damage was done to the building.

I am pleased to be able to report that no serious accidents have occurred to members of the Brigade during the past year.

11. **Water-supply.**—The water used for fire-extinguishing in the city of Calcutta and suburbs is obtained principally from the unfiltered water mains. The pressure maintained is inadequate for the purpose and necessitates the use of the pumps on the fire engines at almost every fire. In many cases considerable difficulty has been experienced in obtaining sufficient quantity of water to supply the fire engines principally owing to the small diameter of a large number of the mains and the low pressure. This question is now being thoroughly discussed, and I trust considerable improvement will be effected. I may point out that it presents unusual difficulties, as owing to the nature of the foreign substances in suspension in the water the mains, if laid too large, silt up until a self-cleansing velocity is obtained.

Inspections of hydrants are made by the Fire Brigade, and the defects found are reported to the authorities concerned.

In many districts where mains are not laid, notably Howrah, Chitpore, Garden Reach and Maniktala. a serious state of affairs exists, as the only means of obtaining water is from ponds, a great many of which are now being filled up on sanitary grounds.

In one case about 300 lengths of hose had to be used at one fire, and in another case about 200 lengths of hose, which clearly shows the great difficulties with which the Brigade have to contend, owing to scarcity of water.

12. **Telephone and Electrical communications.**—On several occasions there has been serious delay in calling the Fire Brigade, and an efficient system of fire alarms is badly needed. The Bengal Telephone Company have, as an experiment, erected six public fire alarms in approved positions. During the short time which these alarms have been working they have proved themselves to be of great utility.

Undoubtedly some serious fires have been averted owing to the rapidity with which it has been possible to transmit the call.

The only means of calling the Fire Brigade at present, with the exception of the above fire alarms, are by private telephones and messengers.

Many of the congested districts of Calcutta comprise some of the most dangerous fire risks it is possible to find, and I fear that, unless means are provided for the rapid transmission of fire calls to the Fire Brigade, severe fires will result. The only hope of saving many of the buildings in case of fire is by the immediate attendance of the Fire Brigade.

Several Government and other buildings are now in direct telephonic communication with the Fire Brigade, and, on the advice of the Fire Brigade, many buildings in which the fire risk is abnormal are installing direct telephones and automatic alarms.

13. **Inspection Department.**—Great progress has been made in inspecting extraordinary fire risks, and many schemes have been prepared for the better prevention of fire in same, but still much remains to be done, and it is hoped that this important department will be shortly increased in numbers.

Regular and systematic inspections of warehouses licensed under the Licensed Warehouse and Fire Brigade Act (I of 1893) are carried out, approximately 4,167 inspections having been made during the year.

Four hundred and one applications for licenses and complaints referring to licenses have been investigated and reported upon.

Three hundred and seventy prosecutions have been instituted under sections 14 and 19 of the Licensed Warehouse and Fire Brigade Act (I of 1893), and have resulted in 309 persons being fined, the fines amounting in all to Rs. 2,123. Thirty-three persons were warned and discharged, 27 cases were withdrawn, and 1 remained pending at the end of the year.

The total number of licenses recommended under the Licensed Warehouse and Fire Brigade Act (I of 1893) during the year was 1,590, which figure includes 142 fresh licenses. One hundred and fifty-seven licenses were cancelled for non-payment of tax.

The inferior construction of many of the buildings containing very inflammable merchandise renders it imperative that more frequent inspections should be carried out, as experience has shown that in such buildings, if a fire is permitted to obtain a firm hold, the walls and roofs quickly collapse, making efficient fire-fighting both dangerous and less effective than it might otherwise have been.

Many of the mills and presses, as a result of the reports of the Inspection Department, are now installing fire-fighting appliances, such as hydrant services, chemical machines, water and sand buckets, etc.

Sprinkler systems have been found to be particularly useful in jute warehouses and other premises containing goods which permit fire to spread rapidly. It is the endeavour of the Inspection Department to increase the number of Sprinkler systems. Automatic fire alarm systems are also frequently recommended, as owing to the very inferior class of watchmen employed in many of the mills and warehouses on many occasions there has been much delay in summoning the Fire Brigade; in fact, in several cases sufficient time has elapsed for the roof and walls to collapse, specially in quickly-spreading fires, such as jute, etc.

The desirability of direct telephonic communication with the Fire Brigade is strongly urged, also the erection of party walls, fire doors and partitions, for limiting fire to as small a space as possible, protection of lift wells, windows, skylights, etc.

Much attention has been paid to safeguarding the public and the prevention of fire in theatres and places of public amusement, exhaustive schemes having been prepared which are now being carried out. On the recommendation of the Fire Brigade two places of public amusement have been closed, but many premises still exist which are both dangerous and unfit for public performances. Unfortunately, owing to the limited authority given under the bye-laws regulating such premises adequate progress cannot be made.

Cinematograph halls are rapidly increasing in number in Calcutta and suburbs, and the risk to the public both from fire and panic demands that suitable bye-laws should be framed and enforced.

14. **Firework licenses, etc.**—One license was granted under section 36, Act I of 1893, to let off fireworks, rockets, etc. Five licenses were cancelled and 9 persons were prosecuted, convicted and fined under Act IV of 1884 during the year under review.

15. **Reorganization.**—My report on the requirements of the Fire Department is still before Government. It is hoped that it will shortly be sanctioned and the Fire Brigade placed on a footing commensurate with the importance and wealth of Calcutta and suburbs.

Under paragraph 8 I have remarked upon the difficulty of obtaining suitable men for the arduous work required of them on the present scale of pay. Extra sub-stations are badly needed in the northern part of the town, as owing to the distance to be travelled and the bad congestion of traffic in the narrow streets considerable time must elapse before the fire engines from the present stations can reach fires in this particular district, which contains a very large number of most severe fire risks. Should a fire in the district mentioned be permitted to obtain a firm hold, the damage to life and property must be enormous, as much valuable merchandise is stored, and many of the houses are occupied by as many as 100 to 200 persons.

16. **General.**—The Calcutta Fire Brigade protects the municipalities of Calcutta, Cossipur-Chitpore, Howrah, Garden Reach and Maniktala, and may attend fires outside the jurisdiction of these municipalities (but not exceeding a radius of 6 miles from the Central Fire Station), provided appliances can be spared, and on payment of a prescribed fee. Appendix XII gives the Government order relating to this and the form which has to be signed prior to the Fire Brigade leaving the jurisdictions of the above municipalities.

The actual area protected by the Calcutta Fire Brigade is just over 113 square miles, and the population included in same is about 1½ million.

On 4th December the second annual sports and exhibitions given by the Calcutta Fire Brigade were held at Hastings House in the presence of His Excellency Lord Carmichael, Governor of Bengal, who took a keen interest in the work.

Special precautions were taken for the protection of Government House from fire on the occasion of the visit of His Excellency the Viceroy.

Attention must be called to the absence of water in many of the districts protected by the Brigade, specially Chitpore and Howrah, in which municipalities the majority of the jute mills and presses are situated. In both these municipalities the only water-supply available is that derived from tanks. Now that many of the tanks are being filled up on sanitary grounds, the matter urgently demands attention.

APPENDIX I.

Statement showing Receipts and Expenditure of the Fire Brigade for 1913-14.

THE year opened with a balance of Rs. 43,733-1-2, the receipts amounted to Rs. 2,46,128-13 and the total expenditure, to Rs. 2,49,821-5-2, leaving a balance of Rs. 40,040-9 at the close of the year.

RECEIPTS.

Fees under the Petroleum Act show an increase of Rs. 140 over the estimate. No judicial fines were realised under the Act, and the sale-proceeds of horses, unserviceable stores, etc., show an increase of Rs. 1,604-13 over the estimate. The fees for letting "Fireworks" show a decrease of Rs. 20. The receipts during the year for hire of engine amount to Rs. 1,200, the net result being an actual increase in receipts over the estimate by Rs. 2,924-13.

EXPENDITURE.

Under head "Establishment" there was a decrease of Rs. 981-5-4 due to leave vacancies.

The total expenditure under head "Contingencies" amounted to Rs. 1,56,072-2-1 against a budget grant of Rs. 1,70,490, showing a decrease of Rs. 14,417-13-11. The expenditure includes the sum of Rs. 12,976-11, being the cost of a motor fire engine purchased during the year, under Government sanction, in lieu of two hand-drawn steam fire engines of the Merryweather's Patent "Valiant" type for which provision was made in the budget for the year 1912-13. and also the sum of Rs. 1,000, being the contribution to the Fire Brigade recreation room, sanctioned in Government order No. 221M., dated 22nd January 1914.

The sum of Rs. 28,000 provided in the budget for 1913-14 for the purchase of one motor Turntable Ladder remained unexpended at the close of the year, as the negotiations regarding the purchase of the machine could not be completed before the year closed.

Under head "Other charges" there was an increase of Rs. 16-8-5, owing to increased expenditure under head "Water pressure."

No. 128M., dated Calcutta, the 12th September 1914.

From—THE HON'BLE MR. F. J. MONAHAN, I.C.S., Commissioner, Presidency Division,
To—The Secretary to the Government of Bengal, General Dept.

I HAVE the honour to submit herewith copies of the Reports on the Working of the Licensed Jute Warehouse and Fire Brigade Act, I (B.C.) of 1893, for the year ending 31st March 1914, in the Cossipore-Chitpur, Maniktala and Garden Reach Municipalities, as received from them.

2. As regards the opening balance shown in Statement I of the Maniktala Municipality, it is reported that the actual closing balance on the 31st March 1913, as shown in the subsidiary account of the Municipality, was Rs. 3,180-8-6 and not Rs. 3,821-6-9 as incorrectly shown in the statement for 1912-13. The mistake was due to the fact that the statement for 1912-13 was submitted before the subsidiary account was written up and only approximate figures were given.

No. 1214, dated Talla, the 1st August 1914.

From—RAI KRIPA NATH DUTT BAHADUR, Chairman, Cossipore-Chitpur Municipality,
To—The Magistrate of the 24-Parganas, Alipur.

WITH reference to your letter No. M.370-2-14, dated the 16th July 1914, I have the honour to submit the following Report on the Working of the Licensed Jute Warehouse and the Fire Brigade Act within the Municipality during the year 1913-14, together with the statements of receipts and disbursements and of the licensed warehouses in the forms prescribed by Government.

2. The rate of the license fee levied on the warehouses in the year of report was 7½ per cent. on their annual valuations. The rate was raised from 5 to 7½ per cent. with effect from the 1st April 1913, to meet the demand of the Commissioner of Police.

3. The total receipts from the fees and the rates specified in Statement I amounted to Rs. 24,484-5-3, from which a refund of Rs. 200 had to be made on account of excess credit of license fee. The net receipts thus came to Rs. 24,284-5-3. The demand of the Commissioner of Police for the year as contribution towards the cost of maintenance of the Metropolitan Fire Brigade being Rs. 36,236, the Municipal Commissioners had to pay Rs. 11,951-10-9 from their General Fund.

4. No rates were levied under sections 25 (*1*)(*a*), 25 (*1*)(*b*) and 25 (*1*)(*c*) of the Licensed Warehouse and Fire Brigade Act during the year of report. Neither were any fines received by the Commissioners during the year 1913-14, as will be seen from the statement submitted herewith.

5. The warehouses licensed during the year of report are shown in Statement II.

RULES FOR THE GRANT OF MEDICAL CERTIFICATES.

FINANCIAL DEPARTMENT.

MEDICAL.

CALCUTTA, THE 23RD OCTOBER 1914.

RESOLUTION—No. 4463 Medl.

READ—

Government Resolution No. 3399Medl., dated the 30th June 1897, laying down revised rules for the grant of medical certificates to candidates for employment in Government service and Gazetted officers applying for leave or permission to retire.

Government Resolution No. 5131Medl., dated the 30th November 1897, revising Appendix II attached to the Government Resolution No 3399Medl., dated the 30th June 1897.

READ ALSO—

A letter from the Inspector-General of Civil Hospitals, Bengal, No. 9813, dated the 16th August 1913.

A letter from the Government of India, Home Department, No. 150, dated the 26th April 1914.

IN the Resolution, dated the 30th June 1897, cited in the preamble, rules were laid down for the grant of medical certificates in Bengal to candidates for employment in the Government service and to applicants for leave on medical certificate or for permission to retire. Under the rules the duty of examining applicants and granting medical certificates in Calcutta is distributed among the medical officers permitted to engage in private practice, and in paragraph 3 of the Resolution it was stated that the rules would also apply to the establishments under the Government of India in Calcutta, and that the orders contained in Appendix II, which was subsequently revised under the Government Resolution dated the 30th November 1897 cited in the preamble, distributing the establishments of the Governments of India and of Bengal, for the purpose of the grant of medical certificates, would not affect the right of any officer under either Government, resident in Calcutta, who is entitled to the attendance of a Presidency Surgeon, to call in for the purpose of treatment any one of them whom he chooses, except in cases in which special orders have been laid down limiting this right.

2. Since the issue of these orders several new offices under the Government of India and of Bengal have been created, and in view of the constitutional changes enected in 1912, it has become necessary to co-ordinate the rules issued on the subject under the Notification. of the Government of Eastern Bengal and Assam No. 1747G., dated the 21st April 1908, which are at present in force in Eastern Bengal with those existing in West Bengal. It is also necessary in consequence of the permanent transfer of several of the offices under the Government of India from Calcutta to Delhi that Appendix II referred to above should be revised.

3. The Governor in Council is therefore pleased in supersession of all previous orders on the subject to lay down the following rules for future guidance.

RULES FOR THE GRANT OF MEDICAL CERTIFICATES.

I. The duty of granting medical certificates and of countersigning certificates, under articles 833 and 834 of the Civil Service Regulations, shall be performed by the Civil Surgeon of the district who will examine or countersign certificates relating to persons of all departments who belong to, or are employed in, his district. He shall on no account examine or countersign a certificate for a person attached to another district, except under the circumstances described in Rule V. In Calcutta such duties shall be performed by the medical officer to whom the department to which the applicant belongs is allotted for the purpose. A list showing the departments allotted to each medical officer in Calcutta is appended to these rules.

Note.—Under the orders contained in Government Resolution No. 1096Medl., dated the 23rd July 1910, the countersignature of medical certificates by a Presidency Surgeon, has been dispensed with in cases of certificates given by the medical practitioners whose names appear in the list of qualified medical practitioners in Bengal. The list of qualified medical practitioners will shortly be replaced by the register of medical practitioners to be maintained under the Medical Act, 1914 (Bengal Act III of 1914).

II. An officer of Government, gazetted or non-gazetted, who is desirous of obtaining a medical certificate recommending leave, extension of leave or retirement, must apply with the cognizance of the head of his office, or if he is himself the head of his office, of the head of his department, to the Civil Surgeon of the district in which he is employed, or, in the case of railway employés, to the Chief Medical Officer of the line. The certificate shall be granted, whether the officer is gazetted or non-gazetted, in the form prescribed by article 828 of the Civil Service Regulations in the case of leave or extension of leave, and by article 447 in the case of retirement. In the case of leave or extension of leave the Civil Surgeon or Chief Medical Officer may, if the patient is unable to travel to headquarters, call upon one of the medical officers under him to certify, but must himself countersign the certificate if satisfied that it is correct. If the officer is employed in Calcutta, he must apply to the medical officer to whom the department in which he is employed is allotted.

III. Medical officers should be very careful to see that sick certificates are not granted until they are fully acquainted with the reasons that have caused the applicant to report sick, and that in no case is such a certificate granted until an application has been received from the head of the patient's department or office, or the patient can produce an order from the head of his department or office to obtain and submit a certificate.

IV. When applicants are reported by their departmental superiors as having reasons other than or in addition to illness for applying for sick leave, they should be kept under close observation to enable the medical officer to satisfy himself whether or not leave is absolutely necessary, and his final decision should be based on the result of such observation.

V. Officers on leave, who, while at a station other than that from which they went on leave, are desirous of obtaining an extension of leave on medical certificate, must apply, if in Calcutta, to the medical officer to whom the department in which they are employed or the department of the Secretariat to which they are immediately subordinate is allotted, and if in the mufussal, to the Civil Surgeon of the district. In every such case it shall be the duty of the medical officer, before he grants a certificate, to ascertain particulars regarding the applicant's previous medical history, as well as whether he is really on leave, and the district to which he belongs; and the fact that this has been done shall be mentioned in the medical certificate.

VI. Candidates selected for Government service and sent for medical examination by the head of the department or office for which they have been selected shall be examined free of charge. Such medical examination must be made by the Civil Surgeon or Chief Medical Officer himself. In Calcutta such examination shall be performed by the medical officer to whom the department has been allotted.

VII. Medical certificates granted to selected candidates for employment in Government service will ordinarily be in the form prescribed by article 49 of the Civil Service Regulations. In the case of candidates for the Provincial Service and in special cases, when required by the head of the department, the certificates shall be granted in the sub-joined form :—

H. L STEPHENSON,

No. 11855-11871-3Emi., dated Simia, the 24th October 1914.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

WITH reference to the Resolution of the Government of India No. 3574-3590-3, dated the 8th May 1914, intimation has been received that the prohibition against the landing of artizans and skilled or unskilled labourers at ports of entry in British Columbia, issued by the Government of Canada, has been further extended to 31st March 1915.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which immigration to Canada is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risk they run in proceeding to that country.

Ordered that a copy of the above Resolution be forwarded for information and guidance to all Local Governments and Administrations and to the Home and Foreign and Political Departments for information.

Ordered also that a copy be published in the *Gazette of India* for general information.

R. E. ENTHOVEN,

The following Communiqué, received from the Government of India on the 1st November 1914 and circulated by the Government of Bengal on the same date, is republished for general information.

J. G. CUMMING,
Chief Secy. to the Govt. of Bengal.

News has been received by telegram, dated the 29th October from the British Consul-General at Odessa to the following effect :—Two or three torpedo boats raided this port before dawn this morning and sunk Russian gunboat *Donetz* in the harbour. Part of the crew have been killed and wounded. Russian steamships *Vitiaz*, *Liazaref* and *Whampao* have been damaged. French ship *Portugal* has been damaged, two of the crew killed and two wounded. Further shells fired on town, damaged the sugar factory with some loss of life. The Governor of Odessa states that the raiding vessels were Turkish.

News has also been received that the Russian *Stationnaire* at Constantinople has been sunk and that a naval attack has been made on Theodosia. These attacks on Russia have been made without declaration of war and with no shadow of provocation or pretext. As these acts of war against Great Britain's ally are likely to affect seriously the relations of the British and Turkish Governments, His Excellency the Viceroy thinks it desirable that the Princes and peoples of India should be made acquainted without delay with the following facts indicating the consistently aggressive attitude of the Turkish Government adopted at German instigation which has culminated in the incidents above reported.

The attitude adopted by the Turkish Government in regard to the German men-of-war, *Goeben* and *Breslau*, aroused great misgivings in London, Paris and Petrograd. These ships were flying from French and British fleets in the Mediterranean and took refuge in the Dardanelles, where, by the rules of international law and under Turkish Treaties, they should either have been laid up by the Turkish Government, their crews no tbeing repatriated until the close of the war, or made to leave for the open sea at the end of 24 hours.

Instead of this, the ships were allowed to remain in shelter and to exercise belligerent rights on a French ship, and then it was suddenly announced that they had been purchased by Turkey who retained the German crews and dismissed the British Admiral from his executive command of the Turkish fleet.

At the same time the passage of the Dardanelles was sown with mines and all British merchant vessels in those waters or coming through from the Black Sea were held up; first, on the pretext that their cargoes were wanted for troops whom Turkey was mobilising, and then that the presence of mines rendered it unsafe for vessels to proceed. This was not only a totally unjustifiable interference on the part of a neutral State with the trade of Great Britain involving both shippers and merchants in heavy loss, but it paralysed the movements of all British shipping in the Black Sea, amounting at the time to 60 or 70 vessels, since not only was it impossible to get through into the Mediterranean, but there was nothing to prevent the *Goeben* and *Breslau* from passing into the Black Sea and destroying all the shipping collected there. The Dardanelles have now been closed in defiance of international Treaties.

Another reason for grave disquietude has been the unfriendly treatment by responsible Turkish officials in Baghdad and Mesopotamia of British subjects and the open incitement of the population by Turkish official circles against Great Britain and her allies.

Notwithstanding all this provocation, His Majesty's Government intimated that, if Turkish were substituted for German crews on the *Goeben* and *Breslau*, if British merchant shipping were not impeded, and if Turkey would honourably carry out the duties of a neutral State, not only would all these illegalities and hostile acts be overlooked, but that a solemn and written guarantee would be given that Great Britain would scrupulously respect the independence and integrity of the Ottoman Empire.

Furthermore, assurances were given that, at the conclusion of peace, Great Britain would see that no conditions were laid down which would impair that independence and integrity, and that economic conditions of a character favourable to Turkey would be obtained.

In spite of these assurances the attitude of Turkey towards Great Britain became increasingly provocative. Evidence continued to reach His Majesty's Government of military preparations in Syria which could have had no other purpose than to facilitate an attack on Egypt and of active propaganda carried on by Turkish and German agents among Bedouin Arabs in the regions adjoining the Egytian frontier. The Mosul and Damascus Army Corps have since their mobilization been constantly sending troops south preparatory for an invasion of Egypt and the Suez Canal from Akaba and Gaza. A large body of Bedouin Arabs have been called out and armed to assist in this venture. Transport has been collected and roads have been prepared up the frontier of Egypt. Mines have been despatched to be laid in the Gulf of Akaba to protect the force from naval attack and the notorious Sheikh Aziz Shawish who has been so well known as a fire-brand in raising Moslem feeling against Christians has published and disseminated through Syria and probably India an inflammatory document urging Muhammadans to fight against Great Britain. It is also reported that Dr. Prueffer who was so long engaged in intrigues in Cairo against the British occupation and is now attached to the German Embassy, Constantinople, has been busily occupied in Syria trying to incite the people to take part in this conflict. Similar intrigues were set on foot elsewhere and reports were even received of the despatch of Turkish emissaries to India with the object of stirring up anti-British feelings among Indian Muhammadans. A striking illustration of the extent to which intrigues have been carried on is furnished by the case of a German employé in the Alexandria City Police who lately returned from leave *vid* Constantinople saying that he had been excused from military service. He was arrested on suspicion on landing and on his person were found a detailed map of the Suez Canal, a sheet of numbered cypher messages concealed in his tarboosh and other compromising correspondence. He had also entrusted to a member of the ship's company two boxes of detonators for exploding dynamite or nitro-glycerine.

Further, a steady stream of German officers and men, both naval and military, together with all kinds of war material, has flowed increasingly into Constantinople, which has been converted to all intents and purposes into a German military base. German officers are known to have penetrated far into the interior of the Turkish Empire in the endeavour to stir up agitation among the inhabitants against Great Britain and her allies. All these movements, it is impossible to doubt, have been carried on with the direct connivance of the Ottoman authorities and can point to only one conclusion.

Finally the deliberate intention of the Turkish Government to provoke Great Britain to war, is shown by the instructions which are known to have been issued by the Turkish Minister of War to the Commandant at Jaffa no later than October 18th on the subject of the measures to be taken by him on the outbreak of hostilities. These instructions not only alluded to His Majesty's Government as the enemy, but they also included an order to break the flagstaff of His Majesty's Consulate and to remove the insignia.

Great Britain, the greatest Muhammadan Power in the world and the faithful and consistent friend of Turkey whom she has steadfastly helped to maintain her position in Europe and to recover her stability which was shaken in the Balkan wars, would see with the greatest regret that Turkey had been decoyed into ranging herself on the side of England's enemies and into adopting an attitude as unjustified as it would be ungrateful. But it cannot be denied that the present situation shows that there is a chauvinistic element endeavouring to drive Turkey into war with England for the benefit of Germany and of Austria, the secular enemy of the Turkish State.

J. G. CUMMING,
Chief Secy. to the Govt. of Bengal.

THE following public announcement is published for general information:—

In view of the outbreak of war between Great Britain and Turkey which to the regret of Great Britain has been brought about by the ill-advised, unprovoked and deliberate action of the Ottoman Government, His Excellency the Viceroy is authorised by His Majesty's Government to make the following public announcement in regard to the holy places of Arabia, including the holy shrines of Mesopotamia and the port of Jeddah in order that there may be no misunderstanding on the part of His Majesty's most loyal Moslem subjects as to the attitude of His Majesty's Government in this war in which no question of a religious character is involved. These holy places and Jeddah will be immune from attack or molestation by the British naval and military forces so long as there is no interference with pilgrims from India to the holy places and shrines in question. At the request of His Majesty's Government, the Governments of France and Russia have given them similar assurances.

CALCUTTA, THE 9TH OCTOBER 1914.

RESOLUTION No. 4522Emi.

READ—

The Annual Report, on Emigration from the Port of Calcutta to British and Foreign Colonies during the year 1913.

THE most important events of the year were the amalgamation of the emigration agencies for Trinidad, Fiji, Jamaica and Mauritius with that for British Guiana and the appointment of a central agency at Benares. These measures were the outcome of the recommendations of Lord Sanderson's Committee on Emigration from India to the Crown Colonies and Protectorates. They aim at effecting improvements in the recruitment of labour for the Colonies, but as they were only introduced on the 1st January 1914 it is too early to appreciate their working.

2. As in previous years there were five emigration agencies in Calcutta, four working for British Colonies and one for the Dutch Colony Surinam. The demand for labour decreased from 8,821 in 1912 to 5,167 in the year under review. The supply exceeded the demand by 726, but out of the total number 512 emigrants were supplied to Jamaica to meet the requisition of

1912, and 226 were sent to Fiji to make up a shortage in the number to be supplied from Madras. British Guiana was the sole Colony which failed to obtain the requisite number of coolies.

3. The number of licenses issued to recruiters in 1913 was 1,211 shewing a decrease of 195 on the previous year. The smaller demand for labour accounts for this decrease. On the other hand, the number of licenses issued for Surinam alone rose to 174 from 94. No explanation of this is given and enquiries will be made. Forty-eight licenses were cancelled during the year, 30 of which were granted in 1912. Thirty-nine licenses were cancelled for misconduct and 9 for other causes. Operations were conducted in Bengal, Bihar and Orissa, the United Provinces, Ajmere, the Central Provinces and the Punjab. The United Provinces, as usual, supplied the largest number of emigrants, 73·66 per cent. of the total number coming from these Provinces.

4. The total number of emigrants registered was 9,171 as compared with 11,698 in the previous year. The decrease is due to the smaller demand. One thousand one hundred and eight coolies were rejected as physically unfit, 230 deserted and 604 were released from their engagements. The casualties in the depôts from all causes amounted to 26·20 per cent. as against 19·21 per cent. in the previous year. The increase may be due to less careful selection in the districts possibly on account of greater difficulty in obtaining suitable emigrants. Of the number actually embarked 3·83 per cent. were returned emigrants, a reduction of ·98 per cent. on the previous year. Surinam required and obtained the largest number of emigrants, 1,675 going to the Dutch Colony, 1,240 to British Guiana and 1,188 to Trinidad.

5. The sanitary arrangements in the depôts continued satisfactory, though the percentages of sickness and mortality rose ·07 and ·12, respectively. The increase in mortality was chiefly among infants. Cases of cerebro-spinal meningitis declined from 12 (with 10 deaths) in 1912 to 6 (with 5 deaths) in the year under review. Orders have recently issued abolishing the experimental open-air hospital in the British Guiana emigration depôt and directing suspected cases to be sent to the Medical College Hospital for treatment.

6. Three thousand five hundred and fifty-one emigrants left the Colonies during the year bringing with them savings aggregating Rs. 6,43,564. or an average of Rs. 181-3-9 per head, as compared with Rs. 194-12-4 in 1912. On the other hand. no fewer than 2,174 emigrants or 61·22 per cent. of the total returned with no savings. The average remittances from resident emigrants to India shew little variation from the figures of the previous year. except in the case of Mauritius. where the average rose annas 2 per head corresponding to an increase of over Rs. 32.000 in the value of the remittances. Natal's remittances, amounting to nearly eleven lakhs, again far exceed those from other Colonies, but, as observed in last year's Resolution, these figures probably include remittances from traders and other Indians not belonging to the labouring classes. As was also observed in that Resolution, the remittances from Mauritius and Fiji would probably have been larger, but for the fact that the immigrants there invest largely in immovable property and draught animals with a view to permanent settlement in these Colonies.

7. Two hundred and thirty-four estates of deceased emigrants valued at Rs. 17,369 were administered by Government during the year. Of these the heirs of 148 were traced. 52 lapsed to the Colonial and Indian Governments, and the remainder were still under enquiry at the end of the year. The emigration accounts closed with a deficit of Rs. 8,013. This is largely accounted for by the fact that the coolies embarked were fewer by 2,400 than in 1912 causing a corresponding deficiency of Rs. 7,200 on the receipt side of the account.

8. Dr. Banks held the post of Protector of Emigrants throughout the year. The thanks of the Governor in Council are due to him for the efficient way in which he carried out his duties.

By order of the Governor in Council,

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 2nd November 1914.

Summary.—During the week under review light, scattered showers fell only in a few places of the western districts. The winter paddy crop on highlands is drying up and the lowland crop is also suffering in places on account of continued drought. "His Britannic Majesty's Government find themselves under the necessity of availing themselves of the power reserved under Article 8 of the International Telegraph Convention and Article 17 of the International Radio-Telegraph Convention to suspend the transmission of telegrams and radio-telegrams to, and from, or in transit through, the United Kingdom, and to, and from, or in transit through, all British possessions and all British Protectorates whatsoever, save and except such telegrams and radio-telegrams as are on the service of His Majesty's Government or of the Government of any British Possession or Protectorate.

NOTIFICATION.

Delhi, the 3rd November 1914.

No. 820-W.—The following statement, which was published in London on the 1st November 1914, by His Majesty's Principal Secretary of State for Foreign Affairs, dated the 31st October 1914, is republished for general information :—

At the beginning of the war the British Government gave definite assurances that if Turkey remained neutral her independence and integrity would be respected during the war and in the settlement of the terms of peace. In this France and Russia concurred. The British Government have since then endeavoured with the greatest patience and forbearance to preserve friendly relations in spite of the increasing breaches of neutrality on the part of the Turkish Government at Constantinople in the case of the German vessels in the Straits. On Friday, the 30th of October 1914, the British Government learnt with the utmost regret that the Turkish ships of war had, without any declaration of war, without warning, and without provocation of any sort, made wanton attacks on the open undefended towns in the Black Sea of a friendly country, thus committing an unprecedented violation of the most ordinary rules of international law, comity and usage. Ever since the German men-of-war, the *Goeben* and *Breslau*, took refuge at Constantinople, the attitude of the Turkish Government towards Great Britain has caused surprise and some uneasiness. Promises made by the Turkish Government to send away the

German officers and crews of the *Goeben* and *Breslau* have never been fulfilled. It was well known that the Turkish Minister of War was decidedly pro-German in his sympathies, but it was confidently hoped that the saner counsels of their colleagues, who had had experience of the friendship which Great Britain has always shown towards the Turkish Government, would have prevailed and prevented that Government from entering upon the very risky policy of taking a part in the conflict on the side of Germany. Since the war German officers in large numbers have invaded Constantinople, have usurped the authority of the Government and have been able to coerce the Sultan's Ministers to take up a policy of aggression. Great Britain, as well as France and Russia, has watched these proceedings patiently, protesting against the many acts which have been constantly committed contrary to neutrality, and warning the Government of the Sultan against the danger in which they were placing the future of the Ottoman Empire. Vigorously assisted by the Ambassadors of Germany and Austria, the German military elements at Constantinople have been persistently doing their utmost to force Turkey into war, both by their activities in the service of the Turks and by the bribes with which they have been so lavish. The Minister of War, with his German Advisers, has lately prepared an armed force for an attack on Egypt. The Mosul and Damascus Army Corps have, since their mobilisation, been constantly sending troops south, preparatory to an invasion of Egypt and the Suez Canal, from Akaba and Gaza. A large body of Bedouin Arabs has been called out and armed to assist in this venture and some of these have crossed the Sinai frontier. Transport has been collected, roads have been prepared up to the frontier of Egypt, and mines have been despatched to be laid in the Gulf of Akaba. The notorious Sheikh Aziz Shawish has published and disseminated through Syria, and probably India, an inflammatory document urging Muhammadans to fight against Great Britain. Doctor Prueffer, who was so long engaged in intrigues at Cairo against the British occupation and is now attached to the German Embassy at Constantinople, has been busily occupied in Syria trying to incite the people to take part in this conflict. Aggressive action was certain to be the result of the activity of the numerous German officers employed in the Turkish Army and acting under the orders of the German Government who have thus succeeded in forcing the hands of the advisers of the Sultan. German intrigue cannot influence the loyalty to Great Britain of the seventy millions of Muhammadans in India and the feeling of the Muhammadan inhabitants of Egypt. They must look with detestation on the misguided action, under foreign influence at Constantinople, which will inevitably lead to the disintegration of the Turkish Empire and which shows such forgetfulness of the many occasions on which Great Britain has shown friendship to Turkey. They must feel bitterly the degeneration of their co-religionists who ought not to have thus been dominated against their will by German influences, and many of them realise that, when Turkey is pushed into war by Germany, they must dissociate themselves from a course of action that is so prejudicial to the position of Turkey itself. The Turkish Government summarily and without notice on Friday shut off telegraphic communication with the British Embassy at Constantinople. This is no doubt the prelude to further acts of aggression on her part and the British Government must take whatever action is required to protect British interests in British territory and also Egypt from attacks that have been made and are threatened.

NOTIFICATION.

No. 3466.

Calcutta, the 2nd November 1914.

IN exercise of the powers conferred by clause (5) of section 37C and section 106 of the Cess Act, 1880 (Bengal Act IX of 1880), the Board of Revenue is pleased to prescribe the following rules :—

Rules for the Guidance of Attestation Officers employed in Cess Revaluation of Midnapore.

1. Tenants who have under them under-tenants shall for the purpose of the Cess Act, 1880, be treated as tenure-holders and the under-tenants as raiyats.

2. Tenancies held on a produce rent shall be valued as follows :—

(*a*) If the rent is a *sanja* rent (*i.e.*, when a definite amount of produce is payable annually), this amount valued at the average value of the produce for the last three years next preceding the revaluation shall be the annual value.

(*b*) If the rent is a *bhag* rent (*i.e.*, when a definite proportion of the produce is payable annually), the Settlement Officer shall ascertain the average quantity of grain annually produced from the land or from each class of land, and shall assess the annual value of the definite proportion of the quantity so ascertained at the average value of the produce for the last three years next preceding the revaluation.

3. Rent-free lands, whether liable to rent or not, shall be valued as follows :—

(*a*) If no part is sublet, the annual value of the land shall be determined by the average letting value of the land, or of similar lands, in the village.

(*b*) If any portion is sublet to a tenant or tenants, the tenancy shall be treated as a tenure in the manner indicated in rule 1 and shall be valued accordingly.

(*c*) Rent-free lands not liable to rent of an annual value of less than Rs. 5 shall not be liable to cess.

4. The culturable land in the cultivating possession of a proprietor (*nij-jote* or *nij-chas*) or a tenure-holder (*nij-chas*) shall be valued as follows :—

The annual value of such land shall be the rent which might reasonably be expected to be paid if the land were let out to tenants. If, therefore, the tenure-holder, when he sublets the land in his own cultivation, usually lets it out on a produce rent, the land should be valued as if it is let out on a produce rent in accordance with rule 2. If, however, he usually sublets such land on a cash rent, the average incidence of cash rent of the land, or of similar land in the village, shall be taken for determining the annual value. If he does not usually let the land out at all, it shall be valued on the system on which the majority of the lands in the village are held.

5. Service lands shall be valued in the manner prescribed by rule 4, as if they were lands in the direct cultivation of the proprietors or tenure-holders.

6. The unculturable land held by proprietors or tenure-holders shall be assessed as follows :—

(*a*) *Waste.*—Lands which are absolutely unculturable, or are incapable of yielding an outturn of any kind, are not liable to assessment, but where land may be made capable of yielding a rent under any circumstances it is liable to assessment, whether the owner chooses to utilise it or not. Such lands shall be valued in accordance with rule 4.

(*b*) *Roads.*—These shall not be assessed.

(*c*) *Homestead lands of non-agriculturists.*—The rent of the land on which a house or a shop stands is assessable. Such land shall ordinarily be valued at the rent payable, or if no rent is paid, at the rate at which similar homesteads are held in the vicinity.

(*d*) *Tanks, bands, ahars, etc.*—Such lands shall be valued according to the ground-rent payable.

(*e*) *Bazars, fairs and hâts.*—Rents received from a bazar, fair or *hât* in the shape of payments for the use and occupation of land by dealers or traders are assessable to cess and must be valued.

(*f*) *Valuable Jungle lands.*—(*i*) The Assistant Settlement Officer shall ordinarily ascertain the annual value of jungle from the rates at which the jungle or similar jungles in the vicinity are sold or might reasonably be expected to be sold having regard to the age of the tree when cut.

All miscellaneous demands such as *falkar*, *bankar*, etc. (except *tasarkar*), both from jungle and other lands shall be included for the determination of the annual value.

(*ii*) In the case of extensive jungle areas in an estate or tenure where sales of the trees in the jungle are annually made, the average annual receipts from such sales during the last three preceding years for the whole estate or tenure or any portion thereof situate in a thana, can be taken to be the annual value of the jungle in the said whole estate or tenure or portion thereof.

(*g*) *Scrubs (Jhari and Jhanti) jungle.*—Lands comprising such lands may either be valued separately from valuable jungles in the manner prescribed in clause (*f*), if necessary, or may be included therein.

required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible, a further deduction will, on that account, be made from the total marks otherwise accruing to him.*

6. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Civil Service of India, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

7. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will undergo an examination, called the Final Examination, in the following compulsory subjects (*b*):—

		Marks.

3.	The Indian Evidence Act	200
4.	Indian History	400
5.	The principal Vernacular Language of the Province to which the Candidate is assigned	400

The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows:—

For Bombay ... ... (unless it is the Candidate's mother-tongue.)	Marathi.
For Madras ... ... (at the option of the Candidate.)	Tamil or Telugu.

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagri character.

A Candidate assigned to Bengal or Assam, whose mother-tongue is Bengali, must offer for examination Hindustani; a Candidate assigned to Bombay, whose mother-tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Madras, whose mother-tongue is either of the languages shown against his Province, must offer the other for examination.

8. Selected Candidates may in addition offer in the Final Examination one of the following optional subjects:—

* It is notified for general information that the number of marks deducted for bad handwriting may be considerable.

(*b*) Instructions, showing the extent of the examination, will be issued to Selected Candidates, as soon as possible after the result of the Open Competition is declared.

9. In the Final Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The examination will be conducted on paper and *viva voce*, as may be deemed necessary.

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in riding will be held as follows:—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination. Candidates who may then satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Civil Service of India will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 7, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India provided they shall comply with the regulations in force, at the time, for that Service.

12. Persons desirous to be admitted as Candidates must apply on Forms which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st June (or, if that date should fall on a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £150 will be given to any Candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State,* viz., *the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College); Victoria University, Manchester.*

This allowance will be paid to the selected Candidate in four instalments on the following dates respectively:—December 24th, after his selection, March 25th, June 24th and the date of his signing his covenant on being finally appointed to the Service.

With the final instalment an allo vance on account of passage to India will be paid to each newly appointed civilian to the amount of £37 10s. 0d. for passage to Calcutta, Madras or Bombay, and £43 for passage to Rangoon, the Officer then making his own arrangements for his passage.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

iii) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all monies he may have received from the Secretary of State for India in the event of—*

(1) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India, or

(2) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.*

The Commissioners have been requested by the Secretary of State for India to draw the attention of Selected Candidates to the prefatory note attached to this Manual, as it is considered important that it should be clearly understood that this compilation is not to be regarded in any other light than that of a collection, made for facility of reference, of certain information and rules, that it is by no means exhaustive, and that it is liable to such modifications as may from time to time be sanctioned by competent authority.

In the one Candidates will be expected to show a general acquaintance with the course of English Literature, as represented in the chief writers in verse and prose, between the reign of Edward III and the death of Queen Victoria.

A minute and detailed knowledge will not be looked for in this part of the Examination. But its aim will be to test how far the Candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature.

The other part of the Examination will relate to one of the following periods, which will follow each other year by year in rotation :—

Period I : 1360 to 1600, Chaucer to Spenser.
Period II : 1600 to 1660, The later Elizabethans.

Period V : 1800 to 1832, Nineteenth Century writers to the death of Scott.
Period VI : 1832 to 1892, From the death of Scott to the death of Tennyson.

The Examination in this part will require from the Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names and other indications placed beside the dates are intended to suggest the general character of the literary development of the period and, consequently, the natural limits of the Examination. All the works of Shakespeare and Milton, for example, will be regarded as falling within the period 1600 to 1660; all the works of Wordsworth and Coleridge within the period 1800 to 1832; all the works of Carlyle, Landor, and Macaulay within the period 1832 to 1892.

No. 812-W.—The following public announcement is published for general information :—

In view of the outbreak of war between Great Britain and Turkey, which, to the regret of Great Britain, has been brought about by the ill-advised, unprovoked and deliberate action of the Ottoman Government, His Excellency the Viceroy is authorised by His Majesty's Government to make the following public announcement in regard to the Holy Places of Arabia, including the Holy Shrines of Mesopotamia and the port of Jeddah, in order that there may be no misunderstanding on the part of His Majesty's most loyal Moslem subjects as to the attitude of His Majesty's Government in this war in which no question of a religious character is involved. These Holy Places and Jeddah will be immune from attack or molestation by the British Naval and Military Forces so long as there is no interference with pilgrims from India to the Holy Places and Shrines in question. At the request of His Majesty's Government, the Governments of France and Russia have given them similar assurances.

Delhi, the 3rd November 1914.

No. 820-W.—The following statement, which was published in London on the 1st November 1914, by His Majesty's Principal Secretary of State for Foreign Affairs, dated the 31st October 1914, is republished for general information :—

At the beginning of the war the British Government gave definite assurances that if Turkey remained neutral her independence and integrity would be respected during the war and in the settlement of the terms of peace. In this France and Russia concurred. The British Government have since then endeavoured with the greatest patience and forbearance to preserve friendly relations in spite of the increasing breaches of neutrality on the part of the Turkish Government at Constantinople in the case of the German vessels in the Straits. On Friday, the 30th of October 1914, the British Government learnt with the utmost regret that the Turkish ships of war had, without any declaration of war, without warning and without provocation of any sort, made wanton attacks on the open undefended towns in the Black Sea of a friendly country, thus committing an unprecedented violation of the most ordinary rules of international law, comity and usage. Ever since the German men-of-war, the *Goeben* and *Breslau*, took refuge at Constantinople, the attitude of the Turkish Government towards Great Britain has caused surprise and some uneasiness. Promises made by the Turkish Government to send away the German officers and crews of the *Goeben* and *Breslau* have never been fulfilled. It was well known that the Turkish Minister of War was decidedly pro-German in his sympathies, but it was confidently hoped that the saner counsels of their colleagues, who had had experience of the friendship which Great Britain has always shown towards the Turkish Government, would have prevailed and prevented that Government from entering upon the very risky policy of taking a part in the conflict on the side of Germany. Since the war German officers in large numbers have invaded Constantinople, have usurped the authority of the Government and have been able to coerce the Sultan's Ministers to take up a policy of aggression. Great Britain, as well as France and Russia, has watched these proceedings patiently, protesting against the many acts which have been constantly committed contrary to neutrality, and warning the Government of the Sultan against the danger in which they were placing the future of the Ottoman Empire. Vigorously assisted by the Ambassadors of Germany and Austria, the German military elements at Constantinople have been persistently doing their utmost to force Turkey into war, both by their activities in the service of the Turks and by the bribes with which they have been so lavish. The Minister of War, with his German Advisers, has lately prepared an armed force for an attack on Egypt. The Mosul and Damascus Army Corps have, since their mobilisation, been constantly sending troops south, preparatory to an invasion of Egypt and the Suez Canal, from Akaba and Gaza. A large body of Bedouin Arabs has been called out and armed to assist in this venture and some of these have crossed the Sinai frontier. Transport has been collected, roads have been prepared up to the frontier of Egypt, and mines have been despatched to be laid in the Gulf of Akaba. The notorious Sheikh Aziz Shawish has published and disseminated through Syria, and probably India, an inflammatory document urging Muhammadans to fight against Great Britain. Doctor Prueffer, who was so long engaged in intrigues at Cairo against the British occupation and is now attached to the German Embassy at Constantinople, has been busily occupied in Syria trying to incite the people to take part in this conflict. Aggressive action was certain to be the result of the activity of the numerous German officers employed in the Turkish Army and acting under the orders of the German Government who have thus succeeded in forcing the hands of the advisers of the Sultan. German intrigue cannot influence the loyalty to Great Britain of the seventy millions of Muhammadans in India and the feeling of the Muhammadan inhabitants of Egypt. They must look with detestation on the misguided action, under foreign influence at Constantinople, which will inevitably lead to the

disintegration of the Turkish Empire and which shows such forgetfulness of the many occasions on which Great Britain has shown friendship to Turkey. They must feel bitterly the degeneration of their co-religionists who ought not to have thus been dominated against their will by German influences, and many of them realise that, when Turkey is pushed into war by Germany, they must dissociate themselves from a course of action that is so prejudicial to the position of Turkey itself. The Turkish Government summarily and without notice on Friday shut off telegraphic communication with the British Embassy at Constantinople. This is no doubt the prelude to further acts of aggression on her part and the British Government must take whatever action is required to protect British interests in British territory and also Egypt from attacks that have been made and are threatened.

RESOLUTION ON THE REPORTS ON THE WORKING OF THE ASSAM LABOUR AND EMIGRATION ACT, 1901 (VI OF 1901) DURING THE YEAR ENDING THE 30th JUNE 1914.

FINANCIAL DEPARTMENT.

EMIGRATION.

CALCUTTA, THE 6TH NOVEMBER 1914.

RESOLUTION—No. 5169EMI.

READ—

The reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901) for the year ending the 30th June 1914, submitted by the Superintendent of Emigration, Calcutta, and the District Superintendents and Assistant Superintendents of Emigration.

DURING the year under report the rules prescribing the routes for the transit of emigrants to the labour districts were amended, owing to the use of the through railway route *viâ* Amingaon instead of the steamer route *viâ* Dhubri as formerly.

2. The number of emigrants of all classes recruited in Bengal, Madras Bihar and Orissa, the United Provinces, the Central Provinces and the adjoining Native States, who embarked at Goalundo during the year. was 55,166, as compared with 53.253 in the preceding year. Of this number, which was the largest number recorded since the year 1909-10, 4,785 were recruited by licensed contractors, 1,740 by garden sardars working under Chapter IV of the Act, and 40,461 by garden sardars working under the control of recognized associations. as against 3,291, 1,744, and 43.085 respectively, in the previous year. Eight hundred and forty-two emigrants recruited by specially-employed garden sardars under section 90 of the Act were despatched during the year, as against none in the previous year, while the number of emigrants alleged to have been recruited in Native States has again risen, the figures being 7,338 for the year under report and 5,133 for 1912-13.

3. As in the previous year, recruiting operations were conducted in this Province in the districts of Bankura, Burdwan, Birbhum, Midnapore and the 24-Parganas only. The total number of emigrants registered in these districts under Chapters III and IV of the Act was 864 and 595 respectively, as against 892 and 314 in the preceding year. 101 emigrants recruited by licensed contractors and 415 emigrants recruited by garden sardars working under Chapter IV of the Act were sent to the labour districts without being placed on any contract in the recruiting districts. The number of unindentured emigrants recruited by garden sardars accredited to the local agents of approved associations was 1,080, compared with 1,397 in the year 1912-13. As in previous years the work of these local agents was generally satisfactory.

4. Only three licensed contractors carried on recruiting business during the year under report as in the preceding year, but the number of recruiters licensed on their behalf was 28, or 24 less than that in the year 1912-13. The licenses of two recruiters, the same number as in 1912-13, were cancelled. Of the 1,089 garden sardars employed in this Presidency during the year, 109 worked under the ordinary procedure of Chapter IV of the Act and 980 under the control of approved associations, as against 52 and 975 respectively in the previous year. The number of criminal cases in connection with recruitment was 24 only as compared with 36 in the preceding year. The number of persons convicted was ten as against 25 in the year 1912-13. The reports shew that greater caution was displayed by registering officers and that local officers were on the watch to prevent illicit recruitment.

6. The depôts, places of accommodation, and rest-houses for emigrants were duly inspected and kept in proper sanitary condition, and the efficiency of the arrangements for the transport of emigrants was maintained. Among the 4,856 emigrants despatched by contractors to Goalundo, there was no death during their journey to that station or on the steamer voyage. Among the sardari emigrants, of whom 43,075 arrived at Goalundo, two deaths were reported during their transit to that place and five deaths after their arrival there. Among the 44,040 emigrants despatched by steamer to Assam 14 died on the voyage, the death-rate having risen from ·02 in the previous year to ·03 in the year under review. Among the 46,929 emigrants reported to have passed through Chandpur only two deaths occurred. The figures shew that the transport arrangements continued satisfactory.

7. Ninety-eight emigrants were repatriated during the year from the labour districts through Goalundo, and 165 coolies, who refused to embark at Goalundo for the labour districts, were also repatriated.

8. In connection with the transport of labour to Assam, receipts fell to Rs. 6,203 from Rs. 9, 531 in the previous year, and expenditure rose to Rs. 24,211 as compared with Rs. 23,242 in 1912-13.

9. The thanks of His Excellency in Council are due to Dr. Banks, who held the office of the Superintendent of Emigration in Calcutta throughout the year and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

H. L. STEPHENSON.

Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 9th November 1914.

Summary.—Excepting scanty showers in Darjeeling there was no rainfall throughout the province during the week. Winter paddy continues to suffer greatly owing to the continued want of rain. Damage to winter rice by insect-pests is still reported from parts of Midnapore. Cattle-disease is reported from ten districts. The average price of common rice has risen by about 0·7 per cent., as compared with that of the previous week.

A ship brought into port for adjudication after recapture from the enemy, but liable to restoration on payment of salvage, shall (except as hereinafter provided) be proceeded against by writ, and, if so ordered by the Judge, on pleadings, in the same form and manner as all other ships captured as prize.

Forms of writ and of pleadings in prize salvage will be found in Appendix A, Nos. 5 and 13 (ii).

2.—(*a*). Where a ship, on recapture from the enemy by any of His Majesty's ships, or by any persons other than her own crew, which, if brought into port by the recaptors, would have been liable to restoration on payment of salvage, is with the consent of the recaptors allowed to prosecute her voyage, or otherwise parts company with or ceases to be in the possession of the recaptors: or

(*b*) Where a ship captured by the enemy is recaptured by the crew of such ship.

In either case the recaptors may take proceedings to recover the salvage due in respect of recapture (if any), either *in rem* or *in personam*.

3. Within 12 days after a writ has been served, the owner shall file an affidavit setting out the value of the property claimed or alleged to have been salved, or an agreement with the recaptors as to such value.

Forms of affidavit and of agreement of value will be found in Appendix A, Nos. 57 and 58.

4. Where no claim is made by an owner or no appearance is entered, or default is made in filing an affidavit or agreement of value, or where the recaptors are dissatisfied with the value deposed to, the Judge may, on the application of the recaptors, direct the property to be appraised by the Marshal or otherwise valued.

5. If no appearance is entered the recaptors may, subject to the filing of an affidavit of service (Appendix A, Form 10), set the case down for hearing by default; in all other cases the recaptors may, at any time after appearance entered, apply for a day for the hearing.

6. Where at the time of a decree or order awarding prize salvage the ship is under arrest, the decree or order of the Court may be enforced by sale of the ship and payment of the amount due out of the proceeds of sale.

7. Where a ship under arrest has been released on security being given, the decree or order awarding prize salvage may be enforced;

(2) if bail has been given, by order for payment against the bail, and execution against the bail in default to payment.

8. Where the proceedings for prize salvage have been taken *in personam* the decree or order may be enforced against the owner, and execution issued against him. 9. Where any salvage is awarded to any persons other than officers and crews of His Majesty's ships of war, either alone or conjointly with such officers and crews, the Judge may make an order apportioning such salvage between such persons or between such persons and such officers and crews in such proportions as to the Judge shall seem fit:

Provided, that nothing herein contained shall be taken to authorise the distribution of salvage among such officers and crews or to affect any Proclamation of His Majesty as to the distribution of Prize Money.

Forms of decrees in prize salvage will be found marked No. 53 (xiii) to (xvii) in Appendix A.

10. No decree or order for the payment of salvage to salvors shall be made unless and until the Judge is satisfied that no persons other than the said salvors are entitled to share in such salvage.

ORDER XXXI.

Land Expeditions and Conjunct Capture with Ally.

A ship taken by land expedition within the meaning of the Naval Prize Act. 1864, sect. 34, or by a conjunct capture with an ally within the meaning of sect. 35 of the said Act, shall be proceeded against and dealt with, as far as possible, in the same manner as hereinbefore provided in the case of any other ship captured as prize.

ORDER XXXII.

Joint Capture, Flag Officers' Claims, and other Conflicting Claims between Captors.

1. Any person claiming to share as joint captor (hereinafter called "the petitioner") may, at any time after the institution of a cause relating to a ship in respect of which he claims a share, proceed as hereinafter provided:

(1) A writ (Appendix A, Form No. 6) shall be issued by the petitioner in the Registry, instituting a cause of joint capture.

(2) If the cause is instituted before condemnation of the ship in respect of which the petitioner claims to share, or in prize salvage before adjudication, the petitioner shall, except in the case of a flag officer claiming to share by virtue of his flag, within six days after issuing his writ give security to the satisfaction of the Court to contribute to the actual captors a just proportion of any costs, charges, expenses or damages that may be incurred by or awarded against the actual captors on account of the capture and detention of the prize. Within 10 days after such security is given the petitioner shall file in the Registry a petition setting out the material facts on which he relies to establish his claim to share as aforesaid.

(3) If the cause is instituted after condemnation of the ship in respect of which the petitioner claims to share, or in prize salvage after adjudication, the judge shall, upon sufficient cause being shown by affidavit why the application was not presented before condemnation or adjudication, and upon payment being made and security being given (as hereinbefore provided), allow the writ to be served upon the party to whom the ship has been condemned (hereinafter called "the respondent"), or in prize salvage on the captors, who shall show cause why the petitioner should not be pronounced to be a joint captor of the said ship.

(4) Where the cause is instituted after condemnation, the petitioner shall, within 10 days after such payment has been made and such security has been given, file a petition setting out all the material facts on which he relies to establish his claim to share as aforesaid, and serve the same as herein before provided.

(5) The respondent shall appear to the writ by entering an appearance (Appendix A, Form No. 8) in the Registry within the time named in the writ.

2. The respondent, if he desires to contest the right of the petitioner to share, shall file an answer.

If the respondent admits the right of the petitioner to share, he shall file an admission in the Registry.

A copy of every pleading shall be served on the opposite party.

Forms of the above pleadings will be found in Appendix A, No. 13 (iii).

3. Upon the answer, and the reply thereto (if any), or admission being filed, the petition shall be heard in Court, on an early day to be appointed by the Registrar upon the application of either party, upon such evidence as the Judge shall think fit.

4. If in a cause instituted against a ship for condemnation as prize, or in a cause for prize salvage, a cause of joint capture is instituted before condemnation or adjudication, the Judge may, at the hearing of the principal cause, upon condemnation of the ship as lawful prize to the Crown, determine the title of the petitioner to share as aforesaid.

Forms of decree in joint capture will be found in Appendix A, No. 53 (xviii) to (xxi).

5. The costs of and occasioned by the petition shall, as the Judge shall direct, be borne by the petitioner or respondent or be paid out of the proceeds of the ship if condemned.

6. Except by special leave of the Judge no party shall be admitted to claim to share as a joint captor in a prize, or in prize salvage, unless he shall institute his cause and file his petition within six months from the date on which the Judge shall have pronounced any other party entitled to such prize, or prize salvage.

7. A claim by a flag officer to share in prize, or prize salvage, by virtue of his flag shall not be made until after condemnation, and shall then be made in the same form and manner and the same proceedings shall be had thereon, as in cases of asserted joint capture :

Provided, that such flag officer shall not be required to pay costs or give security for costs.

8. Where in any proceedings instituted for condemnation, or for prize salvage, the title or interest of the party instituting such proceedings is denied by any other party who asserts that he has as captor the sole title or interest in the prize, or prize salvage, proceedings may be taken for the purpose of determining such title or interest in the form and manner herein provided for determining the title and interest in a claim of joint capture: Provided, that the petitioner shall not be required to give any security or pay any costs before so proceeding unless so ordered by the judge, and that the form of proceedings shall assert such sole title and interest instead of a joint title and interest, and that the petition shall be filed within 10 days after the cause is instituted by the petitioner instead of after security given.

9. All other applications to share in prize proceeds, or prize salvage, shall, unless the Judge shall otherwise direct, be made by motion.

ORDER XXXIII.

In claims for prize bounty the procedure shall be as follows:—

(1) Where the ship is brought in for adjudication the application for a decree under the Naval Prize Act, 1864, section 43, shall be made in Court at the hearing of the principal cause, or as soon thereafter as possible.

(3) Not less than four clear days before such application, notice thereof shall be served upon the proper officer of the Crown.

(4) The witness in support of the application shall be examined before the Judge in Court, or their evidence may be given by affidavit.

(5) If the judge makes a decree in favour of the application and there are no parties other than the original applicants claiming to share in the bounty, the Judge may, upon the hearing of the application, or at a later date if he shall see fit, make a decree declaring the title of the applicants to the prize bounty, and stating the amount thereof. If there are other persons claiming to share in the bounty, the Judge may make a decree that bounty is due, stating the amount thereof, but reserving the question to whom the said bounty is due.

Forms of decree will be found in Appendix A. No. 53 (xxv) to (xxviii).

(6) All claims to share as joint captors in prize bounty shall be, as far as possible, subject to the same procedure and rules, and be heard and determined in the same manner, as hereinbefore provided in the case of claims to share as joint captors in prize.

G.H., solicitor for the commander, officers, and crew of His Majesty's ship , the captors of the said ship , in answer to the petition of

(*a*) *Note*—These pleadings are given as examples only and the forms should be adapted to the facts of each particular case

the claimants, says as follows:—

1. The said ship and her cargo were taken as prize and brought in for adjudication by the captors under the circumstances hereinafter described.

2. On the day of , His Majesty's ship was cruising off , when the said ship came into sight and was signalled and duly boarded by a boat from the , and the ship papers and documents and the cargo of the were duly inspected and examined.

3. Upon one of the bulkheads, and on one of the boats of the said ship , was found a name (the), which was not the present name of the ship, and the name of the port of , which is in enemy territory, and upon enquiry of the master of the said ship, it appeared that the said ship immediately prior to the purchase by her present owners and to the existing war, had been owner by , a firm carrying on business at the said port of , in enemy territory, and that the said master had been in command of the said ship whilst she belonged to the said firm.

4. On receiving such information, the captors brought in the said ship for adjudication upon the suspicion that the sale and transfer of the said ship to the present alleged owners was not *bonâ fide*, and that she still belonged to her former enemy owners.

5. The transfer and assignment of the said shares in the said ship by *C. D.* to the claimant *E. F.* in the petition alleged took place as therein alleged, but at the time of such transfer the said *C. D.* was a member of the said firm of , carrying on business as aforesaid, and the transfer and assignment of the said shares was made and executed by the said *C. D.* as agent of the said firm, and was a mere colourable and fraudulent transfer to cover the enemy character of the said ship and the said ship at the time of capture remained the property, and was navigated for the account and at the risk of the said firm of , and was in fact enemy property.

(*If the cargo or any part thereof was enemy property, allege it, stating the alleged ownership thereof; or if the cargo or any part thereof was contraband, allege it.*)

6. Save as aforesaid the respondents deny all and every the allegations in the petition contained.

And the said *G. H.* prays the Judge to pronounce that the said ship (and her cargo) were at the time of capture property of enemies of the Crown of Great Britain, or otherwise liable to condemnation, and to condemn the same as lawful prize to the captors, or to pronounce for just cause of capture.

G. H., solicitor for *A. B.*, commander, and the officers and crew of His Majesty's ship , the recaptors of the above-named ship, the plaintiffs (*or as the case may be*), says as follows:—

2. On the day of , at about 11 A.M., His Majesty's said ship was proceeding from to in pursuance of her instructions to cruise off the coast of and to assist and protect British vessels whilst passing such coast. At such time as aforesaid it was blowing a heavy gale from the and the weather showed no signs of improvement.

3. Whilst proceeding as aforesaid, those on board the sighted a steamship, appearing to be a British mail steamer, steaming to the on about an opposite course to the . Signals were at once made to the said steamship, which proved to be the of but no answer was made, and although a gun was fired, the altered her course and proceeded in towards the coast of , apparently making for the port of in enemy's territory.

4. The recaptors having thereon reason to believe that the was in possession of the enemy, immediately altered the course of the and chased the gradually, gaining upon her.

5. After hours' chase the , and the had come within 10 miles of the coast of and the was about half-a-mile astern of the said . At this time it was seen that an enemy war ship was coming out of the said port of , and thereupon extra steam was raised on the and she succeeded in getting between the said and the entrance to the said port, and forced her to alter her course to seaward.

6. The said enemy war ship, which proved to be the of guns, and to be carrying a crew of hands came on, and with the assistance of some torpedo boats which were following her engaged the , but after a fierce engagement, lasting about half-an-hour, the said enemy war ship was beaten off and returned to the port of with the torpedo boats, whereupon the said surrendered to the recaptors, and the prize crew in charge of her having been taken on board the , and a prize crew from the having been put on board the , the two vessels in company proceeded towards and the was brought in safety into where she now lies.

7. At the time of the said engagement, His Majesty's said ship was close to the island of , and owing to the gale and the dangerous nature of the coast she ran great risk of being driven on the rocks in manœuvring during the said engagement, and the lives of the recaptors were thereby exposed to great risk and danger. In the said engagement the had men killed and men wounded, including officers.

8. By reason of the premises the and her cargo were saved from condemnation as prize to the enemy under circumstances of special difficulty and danger.

The said *G. H.* prays the Judge to award to the recaptors, one-fourth of the value of the said and her cargo, or such other sum as to the Judge shall seem just, and costs.

Answer.

J.K., solicitor for *C.D.*, the owner (and claimant) of the said ship and *E.F.*, owner of the cargo thereof, defendants (*or as the case may be*), in answer to the petition of the recaptors says as follows:—

1. The defendants (*or as the case may be*) admit that the said ship and her cargo were recaptured from the enemy by the recaptors, but deny that the recapture thereof was made under circumstances of special danger or difficulty entitling the recaptors to a larger part of the value of the said ship and cargo than one-eight part.

2. The defendants (*or as the case may be*) do not admit that His Majesty's said ship was at the time of such recapture engaged in protecting British ships are alleged. At the said time His Majesty's said ship was engaged, in conjunction with other vessels, in watching the said port of and in endeavouring to intercept and capture the said enemy's ship of war the , and for such purpose was endeavouring to entice her out of the said port and bring about an engagement with her, and the fact that the said mail steamer the made for such port in fact brought about the engagement so wished for and intended, and such engagement was not brought about and did not happen merely for the purpose of the recapture of the said ship, but took place in the ordinary course of duty and under the express instructions given to His Majesty's said ship.

The said *J.K.*, prays the Judge to pronounce that the recaptors are entitled to one-eighth of the value of the said ship and her cargo, and no more, and to condemn the recaptors in the cost of and occasion by their claim for a larger sum.

4. If the party served with notice to produce omits or refuses to do so within the time specified in the notice, the adverse party may apply to the Judge for an order to produce, and the Judge may, if he thinks fit, make such order.

A party may, for the purposes of any hearing of a cause, serve a notice (Appendix A, Form No. 19) on any other party to admit any document or fact, saving all just exceptions, and a party not admitting it after such notice shall be liable for the costs of proving the document or fact; unless at the hearing the Judge shall certify that the refusal or omission to admit was reasonable.

Form of admission of facts will be found in Appendix A, No. 20.

ORDER X.

Arrest of Prize—Warrant.

1. Where a ship is taken as prize and brought into port within the jurisdiction of the Court, or seized as prize in port within such jurisdiction,

or having been taken or seized as prize comes or is howsoever within the jurisdiction of the Court, but is not delivered up to the marshal of the Court, the Judge may, after claim made, and upon the application of the claimant, order a warrant for the arrest of the ship to be issued.

2. Where, in any proceeding, it shall be made to appear to the Judge by the Crown or any party to a cause other than a claimant that property taken or seized as prize is within the jurisdiction of the Court, and that it is necessary or desirable that such property should be within the custody of the Court, the Judge may, on the application of the Crown or such party, order a warrant for the arrest of such property to be issued.

3. A warrant (Appendix A, Form No. 21) for the arrest of property shall be issued only on the order of the Judge.

No warrants shall be issued for the arrest of property until an affidavit has been filed by the party applying for the warrant as hereinafter prescribed.

4. The affidavit shall state the grounds upon which the application is made and that the aid of the Court is required. Form of affidavit to lead warrant will be found in Appendix A, No. 22.

5. The warrant shall be issued out of the Registry, and lodged by the party applying for the same with the marshal, and it shall be served by the marshal in the manner following :—

(1) upon ship, freight, or goods on board, by attaching the warrant for a short time to some conspicuous part of the ship, and by leaving a copy of the warrant attached thereto;

(2) upon goods or freight where the goods have been landed or transhipped or are not on board a ship, by attaching the warrant for a short time to such goods, and by leaving a copy of the warrant attached thereto; or, if the person having the custody of the goods refuses access thereto, by showing the warrant to such person and by leaving with him a copy thereof;

(3) upon freight or proceeds of prize in the hands of any person other than a person holding the same on behalf of the Court, by showing the warrant to him, and by leaving with him a copy thereof;

(4) upon freight or proceeds in Court, by showing the warrant to the Registrar, and by leaving with him a copy thereof;

A warrant served as in paragraph (3) provided shall be deemed to be an order for payment into Court forthwith of the freight or proceeds in respect of which the warrant is issued : Provided that, instead of such warrant, the Judge may, if he sees fit, order the person holding or having received such freight or proceeds to pay the same into Court.

6. In urgent cases, the marshal may, after a warrant is placed in his hands for execution, authorise his substitute by telegram or telephone to detain such property until the service of the warrant can be duly effected as herein provided.

7. Warrants may be served on any day including Sunday and any public holiday.

8. Warrants shall be filed by the marshal within one week after service thereof has been completed, with a certificate of service endorsed thereon.

9. This order shall not apply to ships of war.

ORDER XI.

Sale, Appraisement, Safe Custody and Inspection of Prize.

1. The Judge may, at any time on the application of the marshal or any party, make such order as to the removal, safe custody or preservation of a ship as he may think fit, and may at any time on account of the condition of a ship, or on the application of a claimant, and on or after condemnation, order the ship to be appraised, if not already appraised, and sold.

2. The appraisement and sale of a ship, the removal and survey thereof, and the unlading and warehousing of goods shall be effected by the marshal under the authority of a commission.

Forms of commission and bills of sale by the marshal will be found in Appendix A, Nos. 23 and 25.

3. Where a ship is ordered to be sold, such sale shall be by public auction unless the Judge shall for good cause otherwise order, and the gross proceeds thereof shall be paid into Court by the marshal.

Form showing usual conditions of sale will be found in Appendix A, No. 26.

4. Where the Judge orders any act or acts in Rule 2 mentioned to be done, the party who has obtained the order shall thereupon obtain out of the Registry a commission and shall lodge the same with the marshal for execution.

5. Every commission issued under Rule 2 shall, as soon as possible after its execution, be filed in the Registry by the marshal with a return, setting forth the manner in which it has been executed. The marshal shall, with the commission, file his accounts and the vouchers in support thereof.

Forms of marshal's certificate and accounts will be found in Appendix A, Nos. 24 and 27.

6. The Registrar shall on the application of any party review the marshal's accounts, and shall report the amount which he considers should be allowed; and any party to the cause may be heard before the Registrar on the review.

7. The Judge on the application of any party by summons may review the Registrar's decision.

8. The amount found due to the marshal shall be paid out to him on an order signed by the Judge.

9. All costs and expenses of and incidental to orders issued under Rule 2 shall in the first instance be borne and paid by the party on whose application the order is issued.

10. Where the Judge directs that goods be unladen, inventoried, and warehoused, they shall, unless the Judge otherwise orders, remain in the custody of the marshal until sale or restitution thereof.

11. The Judge may, if he thinks fit, upon the application of any party to a prize proceeding, order any property under the arrest of the Court or being the subject-matter of a prize proceeding to be inspected by any party thereto or by any person appointed by the Court.

ORDER XII.

Bail.

1. Bail shall be given by filing a bail bond, which shall be signed by two sureties, unless the Judge shall order that one surety shall suffice, and it shall be taken before a commissioner authorized to administer oaths in the Court in the exercise of its ordinary jurisdiction, or before the Registrar, or by his direction before a clerk in the Registry, and in every case the sureties shall justify by affidavit.

Forms of bail bond and of affidavit of justification will be found in Appendix A, Nos. 28 and 29.

2. A bail bond shall not, unless by consent, be filed until after the expiration of twenty-four hours from the time when a notice (Appendix A, Form No. 30) containing the names and addresses of the sureties and of the commissioner before whom the bail was taken shall have been served upon the adverse solicitor, and a copy of the notice verified by affidavit shall be filed with the bail bond.

3. No commissioner shall take bail on behalf of any person for whom he or any person in partnership with him is acting as solicitor or agent.

4. A commission or fee paid to a person becoming surety to a bail bond or otherwise giving security may be recovered on taxation, provided that the amount of such commission or fee shall not in the aggregate exceed one pound per centum on the amount in which bail is given.

5. If the adverse party is not satisfied with the sufficiency of a surety, he may file a notice of objection to such surety (Appendix A, Form No. 31). The surety shall thereupon be produced for cross-examination on his affidavit before the Registrar, who shall report on his sufficiency. If the Registrar reports against the sufficiency of the surety, a new bail bond shall be prepared.

6. Where bail is given in a cause for condemnation it shall be deemed to be given and to be answerable not merely to the actual captors, but to all parties having any rights in or against the property, including the Crown, and in respect of the decree of the Court or of any Court authorised to hear appeals therefrom.

ORDER XIII.

Releases.

1. Property in the custody of the Court whether under arrest or otherwise shall only be released under the authority of an instrument issued from the Registry (Appendix A, Form No. 32), to be called a release.

2. A release shall be issued at any time before adjudication upon the application of the proper officer of the Crown.

3. A release may be issued without an order of the Judge unless there is a caveat outstanding against the release of the property—

(1) where the property has been ordered by the Judge to be delivered on bail, and one or more bail bonds have been filed for the appraised value of the property; or

(2) where the property has been arrested at the instance of the Crown and a consent for a release signed by the proper officer of the Crown is filed; or

(3) where the property is the subject of proceedings for condemnation and a consent to restitution signed by the captors is filed; or

(4) where proceedings instituted by or on behalf of the Crown are discontinued; or

(5) where in proceedings for the recovery of prize salvage the parties claiming salvage discontinue their proceedings, or their claim is dismissed; or

(6) where in proceedings for the recovery of prize salvage one or more bail bonds have been filed, or other satisfactory security given, for the amount of salvage claimed and costs.

4. No release shall affect the right (if any) of the owners of the property captured to costs and damages against the captor, unless so ordered by the Judge.

5. Where property has been arrested for prize salvage, the release shall not be issued under the foregoing Rules, except on discontinuance of the proceedings or dismissal of the claim, until the value of the property arrested has been agreed upon between the parties or ascertained as by these Rules provided, unless the Judge shall otherwise order.

6. The release shall be lodged with the marshal by the party upon whose application it has been issued, and thereupon, upon payment to the marshal of all fees due to and charges incurred by him in respect of the property by the party upon whose application the release has been issued, unless the Judge shall otherwise order, the property shall be at once released.

7. The marshal shall file the release with a certificate (Appendix A, Form No. 33) endorsed thereon of the date of the execution thereof.

8. The rules of this Order, except Rules 1, 6 and 7, shall not apply to releases on requisition by the Lords of the Admiralty under Order XXIX.

ORDER XIV.

Caveats.

1. Where a ship is subject to a claim for prize salvage but is not under arrest, any person desiring to prevent the arrest of such ship may file a notice

in the Registry undertaking to enter an appearance in any cause for the recovery of prize salvage that may have been or may be instituted against such ship, and to give bail in such cause in a sum not exceeding an amount to be stated in the notice, or to pay such sum into the Registry; and a caveat against the issue of a warrant for the arrest of the ship shall thereupon be entered in the caveat warrant book hereinafter mentioned.

Forms of notice and of caveat warrant will be found marked Nos. 34 and 35, respectively, in Appendix A.

2. A party taking proceedings for prize salvage against a ship, in respect of which a caveat has been entered in the caveat warrant book, shall forthwith serve a copy of the writ instituting the proceedings upon the party on whose behalf the caveat has been entered, and within three days of the service of the copy of the writ the party on whose behalf the caveat has been entered shall, if the sum claimed does not exceed the amount for which he has undertaken, give bail in such sum or pay the same into the Registry.

3. If the party on whose behalf the caveat has been entered shall not within the three days prescribed by Rule 2 have given bail in such sum or paid the same into the Registry, the caveat may be overruled.

4. The entry of a caveat warrant shall not prevent the issue of a warrant for the arrest of any property, but a party at whose instance a warrant shall be issued for the arrest of any property in respect of which there is a caveat warrant outstanding shall be condemned in all costs and damages occasioned thereby, unless he shall show to the satisfaction of the Judge good and sufficient reason for such issue.

5. Any person having any interest in or claim against any property in the custody of the Court, and desiring to prevent its release, shall file a notice in the Registry, and thereupon the Registrar shall enter a caveat in the caveat release book hereinafter mentioned. Forms of notice and of caveat release will be found in Appendix A, Nos. 36 and 37.

6. Any person having any interest in or claim against any money in Court, and desiring to prevent its payment out of Court shall file a notice in the Registry, and thereupon the Registrar shall enter a caveat in the caveat payment book hereinafter mentioned. Forms of notice and of caveat payment will be found in Appendix A, Nos. 38 and 39.

7. If the person entering a caveat is not a party to the cause, the notice shall state his name and address, and an address within three miles of the Registry at which it shall be sufficient to leave all documents required to be served upon him, and such person shall within seven days of the entry of the caveat enter an appearance in the cause, otherwise the caveat will cease to be effective.

8. The party at whose instance a caveat release or caveat payment is entered shall be condemned in all costs and damages occasioned thereby, unless he shall show to the satisfaction of the Judge good and sufficient reason for such entry.

9. A caveat shall not remain in force for more than six months from the date of entering the same.

10. A caveat may at any time be withdrawn by the person at whose instance it has been entered, on his filing a notice withdrawing it. A form of notice of withdrawal will be found in Appendix A, No. 40.

11. The Judge may overrule any caveat.

ORDER XV.

Evidence and Hearing.

1. A cause for the condemnation of a ship of war shall be heard upon the affidavit as to ship papers, and the ship papers, if any, exhibited thereto either alone or upon such other evidence as the Judge may direct.

2. A cause for the condemnation of a ship other than a ship of war shall be heard upon the following evidence, namely:—

(*a*) the affidavit as to ship papers, and the ship papers, if any, exhibited thereto;

(*b*) upon the affidavits of the officers of the ship concerned in the capture;

(*c*) the depositions of the witnesses, if any, examined before the hearing, whether such witnesses belong to the captured ship or are tendered on behalf of the captors or of any other party;

(*d*) the evidence given at the hearing of any witnesses, whether on behalf of the captors or of any other party; and

The examination (if any), before the hearing, of the witnesses from the captured ship shall be conducted by the proper officer of the Crown, or such other person as the Court shall appoint, in such manner as the Court shall direct for the purpose of ascertaining all information necessary for the assistance of the Court.

4. On application made under the last preceding rule or otherwise the Judge may make such order as he shall think fit as to the examination of witnesses, the hearing of the cause, the bringing in of claims, pleadings, discovery by interrogatories, discovery and inspection of documents, or as to any other matter upon such terms as the nature of the case may require.

5. After a day has been fixed for the hearing of a cause the Registrar shall send notice to all parties that the cause will be heard on the appointed day.

6. At the hearing of a cause the party by whom it has been instituted shall begin, unless the Judge shall otherwise order. If there are several claimants the Judge shall direct which of them shall begin. At the hearing of claims on joint capture the persons claiming to be joint captors shall begin.

7. No ship shall be condemned at the hearing in the absence of an appearance or claim until six months have elapsed from the service of the writ, which shall be verified by an affidavit of service (Appendix A, Form No. 10), unless there be on the ship papers and on the evidence, if any, of the witnesses from the captured ship sufficient proof that such ship belongs to the enemy, or is otherwise liable to condemnation.

8. Where in two or more causes claims have been made by or on behalf of the same persons, and the ship papers in such cases are on the file and in the control of the Court, any party may, by leave of the Judge at the hearing, invoke and give in evidence in any one of such causes the ship papers brought in and filed in any other of such causes, and may, by leave of the Judge, invoke and give in evidence in the cause before the Court any ship papers found on board any ship and any deposition made in any other of such causes.

9. Where a witness is to be examined before the hearing of a cause, the Judge may order that such witnesses shall be examined before the Judge, or the Registrar, or before some person authorised or appointed for the purpose by the Court (hereinafter called an examiner).

10. If the witness is out of the jurisdiction of the Court, the Judge may order that he shall be examined before an examiner specially appointed for the purpose, or may order, in lieu of a commission, the issue of a request to examine such witness.

Forms of a commission to examine witnesses, and of a request, and of a return to a commission to examine witnesses, will be found in Appendix A, Nos. 41, 42 and 43.

11. The evidence of every witness taken before the hearing shall be taken down in writing by the Judge, Registrar, or examiner, before whom such witness is examined, or by a shorthand writer, appointed by the Judge, Registrar, or examiner, or agreed upon by the parties and such written evidence, or a transcript of the shorthand writer's notes, shall be certified as correct by the Judge, Registrar, examiner, or shorthand writer.

12. The certified evidence taken before the hearing shall be lodged in the Registry by the party on whose behalf the witness has been examined, or, if taken out of the jurisdiction of the Court, shall forthwith be transmitted by the examiner to the Registry, together with his commission.

13. As soon as the evidence taken before the hearing has been filed or received in the Registry, it may be used as evidence in the cause, saving all just exceptions.

14. When evidence is given at the hearing by the oral examination of witnesses such evidence may be taken by a shorthand writer, appointed by the Judge, and a transcript of the shorthand writer's notes, certified by him to be correct, shall be admitted to prove the oral evidence of a witness.

15. Any examination of a witness may be adjourned, if necessary, from time to time, and from place to place, as the Judge, Registrar, or examiner before whom such examination is taken shall direct.

16. The Judge may order any person within the jurisdiction of the Court who has made an affidavit in a cause to attend for cross-examination thereon before the Judge.

17. Where witnesses are examined orally, whether before the Judge, the Registrar, or an examiner, the parties, the counsel, solicitors, or agents may attend the examination, and the witnesses shall be examined, cross-examined, and re-examined in such order as the Judge, Registrar, or examiner may direct, and questions may be put to any witness by the Judge, Registrar, or examiner as the case may be.

18. The Judge may disallow any questions put in cross-examination of any party or witness which may appear to him to be vexatious or not relevant to any matter proper to be inquired into in the cause.

19. Any person wilfully disobeying any order or subpœna requiring his attendance for the purpose of being examined, or cross-examined, or producing any document, or, on attending, refusing to answer any proper question, shall be deemed guilty of contempt of Court and may be dealt with accordingly.

20. Where any ship papers or other documents have to be translated for use in a cause, such translation shall be made by an interpreter, appointed by the party who desires to use such translation, or if necessary, by a person appointed for the purpose by the Judge. The parties to any proceeding may agree, or, if there is no party other than the Crown or the captor, the proper officer of the Crown may direct, which and what parts, if any, of the ship papers and documents shall be translated.

6. When a reference has been heard, the Registrar shall draw up a report in writing of the result of the reference, showing any further particulars and reasons that may be necessary. The Registrar shall report whether any and what part of the costs of the reference should be allowed and to whom.

The report shall be in the Form No. 44 of Appendix A, or in such other form as the circumstances of the case may require.

7. The claimant, who has received notice from the Registry that the report is ready, shall, within six days from the time when he has received such notice, file the report and serve a notice of such filing on the opposite party, and shall forthwith apply for an order (Appendix A, Form No. 45) confirming the report.

7. Any application made in chambers *ex parte* shall, if the Judge think fit so to require, be made by summons.

Forms of writ and of pleadings in prize salvage will be found in Appendix A, Nos. 5 and 13 (ii).

2.—(*a*). Where a ship, on recapture from the enemy by any of His Majesty's ships, or by any persons other than her own crew, which, if brought into port by the recaptors, would have been liable to restoration on payment of salvage, is with the consent of the recaptors allowed to prosecute her voyage, or otherwise parts company with or ceases to be in the possession of the recaptors: or

(*b*) Where a ship captured by the enemy is recaptured by the crew of such ship.

In either case the recaptors may take proceedings to recover the salvage due in respect of recapture (if any), either *in rem* or *in personam*.

3. Within 12 days after a writ has been served, the owner shall file an affidavit setting out the value of the property claimed or alleged to have been salved, or an agreement with the recaptors as to such value

Forms of affidavit and of agreement of value will be found in Appendix A, Nos. 57 and 58.

4. Where no claim is made by an owner or no appearance is entered, or default is made in filing an affidavit or agreement of value, or where the recaptors are dissatisfied with the value deposed to, the Judge may, on the application of the recaptors, direct the property to be appraised by the Marshal or otherwise valued.

5. If no appearance is entered the recaptors may, subject to the filing of an affidavit of service (Appendix A, Form 10), set the case down for hearing by default; in all other cases the recaptors may, at any time after appearance entered, apply for a day for the hearing.

6. Where at the time of a decree or order awarding prize salvage the ship is under arrest, the decree or order of the Court may be enforced by sale of the ship and payment of the amount due out of the proceeds of sale.

7. Where a ship under arrest has been released on security being given, the decree or order awarding prize salvage may be enforced;

9. Where any salvage is awarded to any persons other than officers and crews of His Majesty's ships of war, either alone or conjointly with such officers and crews, the Judge may make an order apportioning such salvage between such persons or between such persons and such officers and crews in such proportions as to the Judge shall seem fit:

Provided, that nothing herein contained shall be taken to authorise the distribution of salvage among such officers and crews or to affect any Proclamation of His Majesty as to the distribution of Prize Money.

Forms of decrees in prize salvage will be found marked No. 53 (xiii) to (xvii) in Appendix A.

10. No decree or order for the payment of salvage to salvors shall be made unless and until the Judge is satisfied that no persons other than the said salvors are entitled to share in such salvage.

A ship taken by land expedition within the meaning of the Naval Prize Act, 1864, sect. 34, or by a conjunct capture with an ally within the meaning of sect. 35 of the said Act, shall be proceeded against and dealt with, as far as possible, in the same manner as hereinbefore provided in the case of any other ship captured as prize.

ORDER XXXII.

Joint Capture, Flag Officers' Claims, and other Conflicting Claims between Captors.

1. Any person claiming to share as joint captor (hereinafter called "the petitioner") may, at any time after the institution of a cause relating to a ship in respect of which he claims a share, proceed as hereinafter provided:

(1) A writ (Appendix A, Form No. 6) shall be issued by the petitioner in the Registry, instituting a cause of joint capture.

(2) If the cause is instituted before condemnation of the ship in respect of which the petitioner claims to share, or in prize salvage before adjudication, the petitioner shall, except in the case of a flag officer claiming to share by virtue of his flag, within six days after issuing his writ give security to the satisfaction of the Court to contribute to the actual captors a just proportion of any costs, charges, expenses or damages that may be incurred by or awarded against the actual captors on account of the capture and detention of the prize. Within 10 days after such security is given the petitioner shall file in the Registry a petition setting out the material facts on which he relies to establish his claim to share as aforesaid.

(3) If the cause is instituted after condemnation of the ship in respect of which the petitioner claims to share, or in prize salvage after adjudication, the judge shall, upon sufficient cause being shown by affidavit why the application was not presented before condemnation or adjudication, and upon payment being made and security being given (as hereinbefore provided), allow the writ to be served upon the party to whom the ship has been condemned (hereinafter called "the respondent"), or in prize salvage on the captors, who shall show cause why the petitioner should not be pronounced to be a joint captor of the said ship.

(4) Where the cause is instituted after condemnation, the petitioner shall, within 10 days after such payment has been made and such security has been given, file a petition setting out all the material facts on which he relies to establish his claim to share as aforesaid, and serve the same as herein before provided.

(5) The respondent shall appear to the writ by entering an appearance (Appendix A, Form No. 8) in the Registry within the time named in the writ.

2. The respondent, if he desires to contest the right of the petitioner to share, shall file an answer.

If the respondent admits the right of the petitioner to share, he shall file an admission in the Registry.

A copy of every pleading shall be served on the opposite party.

Forms of the above pleadings will be found in Appendix A, No. 13 (iii).

3. Upon the answer, and the reply thereto (if any), or admission being filed, the petition shall be heard in Court, on an early day to be appointed by the Registrar upon the application of either party, upon such evidence as the Judge shall think fit.

4. If in a cause instituted against a ship for condemnation as prize, or in a cause for prize salvage, a cause of joint capture is instituted before condemnation or adjudication, the Judge may, at the hearing of the principal cause, upon condemnation of the ship as lawful prize to the Crown, determine the title of the petitioner to share as aforesaid.

Forms of decree in joint capture will be found in Appendix A, No. 53 (xviii) to (xxi).

5. The costs of and occasioned by the petition shall, as the Judge shall direct, be borne by the petitioner or respondent or be paid out of the proceeds of the ship if condemned.

6. Except by special leave of the Judge no party shall be admitted to claim to share as a joint captor in a prize, or in prize salvage, unless he shall institute his cause and file his petition within six months from the date on which the Judge shall have pronounced any other party entitled to such prize, or prize salvage.

7. A claim by a flag officer to share in prize, or prize salvage, by virtue of his flag shall not be made until after condemnation, and shall then be made in the same form and manner and the same proceedings shall be had thereon, as in cases of asserted joint capture :

Provided, that such flag officer shall not be required to pay costs or give security for costs.

8. Where in any proceedings instituted for condemnation, or for prize salvage, the title or interest of the party instituting such proceedings is denied by any other party who asserts that he has as captor the sole title or interest in the prize, or prize salvage, proceedings may be taken for the purpose of determining such title or interest in the form and manner herein provided for determining the title and interest in a claim of joint capture: Provided, that the petitioner shall not be required to give any security or pay any costs before so proceeding unless so ordered by the judge, and that the form of proceedings shall assert such sole title and interest instead of a joint title and interest, and that the petition shall be filed within 10 days after the cause is instituted by the petitioner instead of after security given.

9. All other applications to share in prize proceeds, or prize salvage, shall, unless the Judge shall otherwise direct, be made by motion.

ORDER XXXIII.

(4) The witness in support of the application shall be examined before the Judge in Court, or their evidence may be given by affidavit.

If there are other persons claiming to share in the bounty, the Judge may make a decree that bounty is due, stating the amount thereof, but reserving the question to whom the said bounty is due.

Forms of decree will be found in Appendix A. No. 53 (xxv) to (xxviii).

(6) All claims to share as joint captors in prize bounty shall be, as far as possible, subject to the same procedure and rules, and be heard and determined in the same manner, as hereinbefore provided in the case of claims to share as joint captors in prize.

6. The preparation of the record shall be subject to the supervision of the Court, and the parties may submit any disputed question arising in connection therewith to the Court.

7. The Registrar, as well as the parties, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the appeal, and generally to reduce the bulk of the record as far as practicable.

8. Records in appeals to His Majesty in Council shall be printed in the form known as demy quarto and may be printed either in or out of England. The number of lines in each page shall be forty-seven or thereabouts and every tenth line shall be numbered in the margin.

Where the record relates to an appeal from a Court out of England and is to be printed in England, or where the record relates to an appeal from the High Court in England, the Registrar shall, at the expense of the appellant, transmit to the Registrar of the Privy Council one certified copy of such record, together with an index of all the papers and exhibits in the case.

9. Where there are two or more appeals arising out of the same matter the Court may direct the appeals to be consolidated.

10. An appellant may, at any time before the record is transmitted to the Privy Council, withdraw his appeal on such terms as to costs and otherwise as the Court may direct.

11. Where an appellant fails to show due diligence in the prosecution of his appeal before the transmission of the record to the Privy Council, the Court may, on an application made by the respondent, dismiss the appeal or make such order as to costs or otherwise as the Court shall think fit.

12. Where at any time before the hearing of the appeal the record becomes defective by reason of the death or change of status of a party to the appeal, the Court shall, on an application made by any person interested, grant a certificate showing who, in the opinion of the Court, is the proper person to be substituted on the record in place of, or in addition to, the party who has died or undergone a change of status.

13. Where His Majesty in Council directs a party to bear the costs of an appeal incurred in the Court below, such costs shall be taxed by the proper officer of the Court in accordance with Order XIX, r. 2.

14. The Court shall enforce any order or judgment of His Majesty in Council in like manner as any judgment or order of the Court.

15. An appellant whose appeal has been admitted shall prosecute his appeal in accordance with the rules for the time being regulating the general practice and procedure in appeals to His Majesty in Council, so far as such rules may be applicable.

G H., solicitor for the commander, officers, and crew of His Majesty's ship , the captors of the said ship , in answer to the petition of

(*a*) *Note*—These pleadings are given as examples only, and the forms should be adapted to the facts of each particular case

the claimants, says as follows:—

1. The said ship and her cargo were taken as prize and brought in for adjudication by the captors under the circumstances hereinafter described.

2. On the day of , His Majesty's ship was cruising off , when the said ship came into sight and was signalled and duly boarded by a boat from the , and the ship papers and documents and the cargo of the were duly inspected and examined.

3. Upon one of the bulkheads, and on one of the boats of the said ship , was found a name (the), which was not the present name of the ship, and the name of the port of , which is in enemy territory, and upon enquiry of the master of the said ship, it appeared that the said ship immediately prior to the purchase by her present owners and to the existing war, had been owner by , a firm carrying on business at the said port of , in enemy territory, and that the said master had been in command of the said ship whilst she belonged to the said firm.

4. On receiving such information, the captors brought in the said ship for adjudication upon the suspicion that the sale and transfer of the said ship to the present alleged owners was not *bonâ fide*, and that she still belonged to her former enemy owners.

5. The transfer and assignment of the said shares in the said ship by *C. D.* to the claimant *E. F.* in the petition alleged took place as therein alleged, but at the time of such transfer the said *C. D.* was a member of the said firm of , carrying on business as aforesaid, and the transfer and assignment of the said shares was made and executed by the said *C. D.* as agent of the said firm, and was a mere colourable and fraudulent transfer to cover the enemy character of the said ship and the said ship at the time of capture remained the property, and was navigated for the account and at the risk of the said firm of , and was in fact enemy property.

(*If the cargo or any part thereof was enemy property, allege it, stating the alleged ownership thereof; or if the cargo or any part thereof was contraband, allege it.*)

6. Save as aforesaid the respondents deny all and every the allegations in the petition contained.

And the said *G. H.* prays the Judge to pronounce that the said ship (and her cargo) were at the time of capture property of enemies of the Crown of Great Britain, or otherwise liable to condemnation, and to condemn the same as lawful prize to the captors, or to pronounce for just cause of capture.

At this time it was seen that an enemy war ship was coming out of the said port of , and thereupon extra steam was raised on the and she succeeded in getting between the said and the entrance to the said port, and forced her to alter her course to seaward.

6. The said enemy war ship, which proved to be the of guns, and to be carrying a crew of hands came on, and with the assistance of some torpedo boats which were following her engaged the , but after a fierce engagement, lasting about half-an-hour, the said enemy war ship was beaten off and returned to the port of with the torpedo boats, whereupon the said surrendered to the recaptors, and the prize crew in charge of her having been taken on board the , and a prize crew from the having been put on board the , the two vessels in company proceeded towards and the was brought in safety into where she now lies.

7. At the time of the said engagement, His Majesty's said ship was close to the island of , and owing to the gale and the dangerous nature of the coast she ran great risk of being driven on the rocks in manœuvring during the said engagement, and the lives of the recaptors were thereby exposed to great risk and danger. Answer.

J.K., solicitor for *C.D.*, the owner (and claimant) of the said ship and *E.F.*, owner of the cargo thereof, defendants (*or as the case may be*), in answer to the petition of the recaptors says as follows:—

1. The defendants (*or as the case may be*) admit that the said ship and her cargo were recaptured from the enemy by the recaptors, but deny that the recapture thereof was made under circumstances of special danger or difficulty entitling the recaptors to a larger part of the value of the said ship and cargo than one-eight part.

2. The defendants (*or as the case may be*) do not admit that His Majesty's said ship was at the time of such recapture engaged in protecting British ships are alleged. At the said time His Majesty's said ship was engaged, in conjunction with other vessels, in watching the said port of and in endeavouring to intercept and capture the said enemy's ship of war the , and for such purpose was endeavouring to entice her out of the said port and bring about an engagement with her, and the fact that the said mail steamer the made for such port in fact brought about the engagement so wished for and intended, and such engagement was not brought about and did not happen merely for the purpose of the recapture of the said ship, but took place in the ordinary course of duty and under the express instructions given to His Majesty's said ship.

The said *J.K.*, prays the Judge to pronounce that the recaptors are entitled to one-eighth of the value of the said ship and her cargo, and no more, and to condemn the recaptors in the cost of and occasion by their claim for a larger sum.
